In continuation of Government Notification No. G. 27129—P. P. 54-19-4, dated the 8th June 1920, the following Proclamation No. 69, dated 26th June 1920, issued in Australia, is hereby republised for general information :—

Brushes or Toilet Articles containing or made from the Hair of Animals.

PROCLAMATION.

Australia to wit, R. M. Ferguson, Governor-General.

By His Excellency the Governor of the Commonwealth of Australia.

Whereas by the Quarantine Act 1908-1915, it is enacted that the Governor-General may, by proclamation, prohibit the importation into Australia, of any articles likely, in his opinion to introduce any infectious or contagious disease, and that the power of prohibition shall extend to prohibition generally or with limitations as to place and subject matter, and either absolutely or subject to any special conditions or restrictions.

And whereas by a proclamation issued in pursuance of the said Act and published in the Gazette of 25th March 1920, the importation from certain countries of shaving brushes or other toilet articles made from the hair of animals was prohibited.

And whereas it is desirable to permit the importation of the said articles from certain countries subject to certain conditions :—

Now therefore, I, Sir Ronald Craudfurd Munro Ferguson, the Governor-General aforesaid, acting with the advice of the Federal Executive Council, do hereby repeal the said Proclamation and I do hereby prohibit the importation into Australia of brushes of any description of toilet articles containing or made from the hair of animals, which have been manufactured in Eastern or South Eastern Asia, India, Ceylon, Japan, the East Indian Islands, or the Philippine Islands, unless a certificate from a responsible official of the Health Department of the country of origin is produced within 60 days of the arrival of the goods in Australia satisfactorily identifying them and certifying that the hair contained in them or from which they are made, was effectively cleaned and disinfected before manufacture.

This proclamation may be cited as Quarantine Proclamation No. 69.

Given under my Hand and the Seal of the Commonwealth this twenty-sixth day of June, one thousand nine hundred and twenty, and in the eleventh year of His Majesty's reign.

By His Excellency's Command.
GOD SAVE THE KING.

No. G. 8757—Med. 79-20-2, dated 29th October 1920.

The following Order No. 2225, dated the 10th September 1920, issued by the Government of Madras regarding the price charged for quinine packets, is published for general information :—

"The Government have recently had under consideration the question of the price charged for the 10 grain packets of quinine which are sold at Post Offices in order to popularize the use of the drug.

2. The present price of 3 pies a packet was fixed in 1910 when the cost of manufacture was Rs. 7-12-5 a pound and even then represented a slight loss on the transaction. It has been calculated that at the present cost of manufacture, packing, distribution and sale, the

amount realised out of the 3 pies which is creditable to the cost of the quinine is less than half the actual cost at the factory. Meanwhile the cost of quinine in the open market has more than doubled.

3. In view of these considerations, it seems to the Government that it is no longer sound policy to continue sale at so great a loss and they have therefore decided to follow the example of the Government of Bombay in raising the price to 6 pies a packet which, it is calculated, will leave a small margin over the cost of manufacture, packing, transport and sale. Incidentally they propose to raise the commission paid to Postmasters from 4 to 5 annas a packet of 100 powders or from Rs. 1-12-0 to Rs. 2-3-0 per pound.

4. This decision will take effect from the 1st October 1920. Concurrently with this, the Government propose, subject to the sanction of the Government of India, to make a considerable reduction in the price of quinine supplied to local hospitals and dispensaries and they hope that any reduction in the issue from the Post offices which may result from the increase in price of the supply will be more than made up by the increase in the issues made under medical advice."

No. G. 8819—P. P. 82-20-2, dated 30th October 1920.

The following Notification No. 6634, dated 2nd October 1920, issued by the Government of India in the Department of Commerce is hereby republished for general information:—

"At the Court at Buckingham Palace, the 13th day of August 1920."

PRESENT.

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Such appointments shall be made in accordance with general or special orders to be issued in this behalf by the Governer-General in Council and the orders shall prescribe the terms as to pay, pension and leave of absence and conditions of service generally, on which such appointments may be made.

8. If any person on the establishment of the Secretary of State in Council is appointed to be an officer, clerk or servant on the establishment of the High Commissioner, such person shall have a right of appeal to the Secretary of State in Council against any order of the High Commissioner, removing or suspending him from employment or affecting his pay, promotion or conditions of employment, and shall for the purposes of superannuation or retiring allowance or additional allowance or gratuity, and his legal personal representatives shall for the purpose of gratuity be in the same position as if he had remained on the establishment of the Secretary of State in Council.

9. The High Commissioner shall lay before the Auditor of the Accounts of the Secretary of State in Council, accounts of the receipt, expenditure and disposal in the United Kingdom of all money, stores and property by the High Commissioner, accompanied by proper vouchers for their support, and submit to the inspection of the Auditor all books, papers and writings having relation thereto, and supply any information which may be required by the Auditor in connection therewith and shall as soon as may be, transmit to the Governor-General in Council a copy of any report made by the Auditor on such accounts.

NOTIFICATIONS.

GENERAL.

No. G. 9489—P.P. 82-20-4, dated 15th November 1920.

In continuation of Government Notification No. G. 8819—P.P. 82-20-2, dated 30th October 1920, the following Notification No. 6636, dated the 2nd October 1920, and Press Communique dated 20th September 1920 issued by the Government of India in the Department of Commerce are hereby republished for general information.

Notification.

In the exercise of the powers conferred by clause 1 ofthe Order of the King's Most Excellent Majesty in Council dated the 13th August 1920, the Governor-General in Council, with the approval of the Right Honourable the Secretary of State for India in Council, is pleased to appoint Sir William Stevenson, Meyer, G.C.I.E., K.C.S.I., as High Commissioner for India in the United Kingdom with effect from the 1st October 1920.

Press Communique.

1. Section 35 of the Government of India Act, 1919, provides for the creation, by Order in Council, of a High Commissioner for India in the United Kingdom.

2. This section was inserted on the recommendation of Lord Crew's Committee on the Home Administration of Indian affairs. Lord Crew's Committee proposed and the proposal was endorsed by the Joint Committee of both Houses which was appointed to consider the Bill which subsequently passed into law as the Government of India Act, 1919, that the Government of India should have a special representative of high status in London who would eventually take over all work hitherto done by the India Office for the Indian Government which is of an agency, as opposed to a political and administrative character, *i.e.*, in which the India Office ordinarily carry out the wishes of the Indian Government without question.

3. The further developments of the functions and powers of the High Commissioner and his gradual approximation to the position of a High Commissioner to the self-governing Dominions, will naturally depend upon the changes which may ensue in the relations of the Government of India to the Secretary of State and Parliament.

4. It has now been decided by the Government of India and His Majesty's Government that the time has come for making a beginning in the direction described above, by the appointment of a High Commissioner and that appointment has been created and its general functions and status defined by an order in Council, approved by His Imperial Majesty the King.

5. The High Commissioner, who will be subordinate to the Government of India will at the outset, take up the control of the large Stores Department of the India Office and the accounts section, connected therewith and the Indian Students Branch. He will also supervise the work of the Indian Trade Commissioner already located in the City. When these arrangements are in satisfactory working order, the Secretary of State for India, will, in conjunction with the Government of India, decide what further work of an agency character, for instance such matters as the payment of leave and pension allowances can be transferred from the India Office to the High Commissioner and from what date.

6. The Order in Council prescribes that the appointment of the High Commissionership shall be made by the Governor-General of India in Council, with the approval of the Secretary of State for India in Council, and the Government of India have nominated as the first holder of the appointment Sir William Meyer, G.C.I.E., K.C.S.I., formerly a member of the Governor-General's Executive Council. This nomination has been approved by the Secretary of State for India. A Secretary will be attached to the High Commissioner and the first holder of the appointment will be an Indian gentleman namely; Mr. J. W. Bhore, C.B.E., I.C.S. At the outset, the officers and clerks will be mainly those hitherto employed in the India Office on the work now to be taken over but, as the time goes on, the High Commissioner will fill up vacancies and provide for new posts which expansion of work may involve by independent recruitment under orders of the Government of India.

7. The High Commissioner will enter on his duties on the 1st October. He will have a separate office building which will probably be located at 42, Grosvenor Gardens. If this is not ready for his occupation by the date above mentioned, he will sit in the India Office, until it is.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

NOTIFICATIONS.

GENERAL.

No. G. 9575—*P. P.* 85-20-2, *dated* 17*th November* 1920.

The following Notification dated 6th November 1920, issued by the Government of India on "Non-Co-operation" is hereby republished for general information:—

"A *Gazette of India Extraordinary* issued to-day, publishes the following resolution by the Government of India in the Home Department:—

In view of the recent events the Governor-General in Council considers that it is necessary to make a further declaration of the attitude and policy of the Government of India towards the non-co-operation movement, not only for the guidance of Local Governments and Administration, but also for the information of the people of India. At the opening of the autumn session of the Imperial Legislative Council, His Excellency the Viceroy explained the policy which the Government of India have up to date followed in this matter. Although, in their opinion the movement is unconstitutional in that it has as its object the paralysis and subversion of the existing administration of the country the Government have hitherto refrained from instituting criminal proceedings or taking any other action against those of its promoters who have advocated simultaneously with non-co-operation abstention from violence and they have instructed Local Governments to take action against those persons only who in furtherance of the movement, have gone beyond the limits originally set by its organisers and have by speech or writing openly incited the public to violence or have attempted to tamper with the loyalty of the army or of the police.

CONSIDERATIONS INFLUENCING GOVERNMENT POLICY.

In adopting this policy, the Government have been influenced by several considerations. In the first place they have been reluctant to interfere with the liberty of speech and the freedom of the press at a time when India is on the threshold of a great advance towards the realization of the principle of self-government within the Empire, when, indeed, the first elections are already in sight. In recognition of that advance and in pursuance of the spirit of the King Emperor's Proclamation of December last they extended His Majesty's clemency to many hundreds of political offenders who were then in custody and they have since released from the restrictions of the Press Act numerous papers which were formerly held to security. Although these concessions have in many cases failed to evoke any response of recognition the Government are loth to reimpose restrictions which have so lately been relaxed.

In the second place, the Government are at all times reluctant to embark on a campaign against individuals some of whom may be actuated by honest, if misguided motives. This consideration is reinforced by the knowledge that such action even, if it took the form of prosecution under the ordinary criminal law, would be likely to give those against whom it might be directed the opportunity of posing as martyrs and might also by evoking false sympathy swell the number of adherents to a cause which has in itself no intrinsic merit to commend it to public acceptance.

The third and chief consideration, however, which has influenced the Government of India is their trust in the common sense of India, their belief that the sanity of the classes and the masses alike would reject non-co-operation as a visionary and chimerical scheme which, if successful, could only result in widespread disorder, political chaos and the ruin of all those who have any real stake in the country. The appeal of non-co-operation is to prejudice and ignorance, and its creed is devoid of any constructive genius. India has had bitter experience of the fruits of its forerunner, the Satyagraha cult, and the Governor-General in Council still hopes that with that lamentable warning before her eyes India will reject the much greater peril of non-co-operation. Its principal exponents have firmly avowed that their object is to destroy the present Government, to dig up the foundations of the British Government in India and they have promised their followers that, if only their gospel be generally accepted, India shall be self-governing and independent within one year.

WOULD LEAVE INDIA DEFENCELESS.

The full cosummation of their hopes would leave India defenceless alike against foreign aggression and internal chaos. The benefits of stable Government and undisturbed peace, the results that have been attained by the orderly progress of India for more than a century, the still greater results which it is hoped will attend her advance under the Reforms Scheme, her material prosperity and her political progress are all to be sacrificed to the irresponsible caprice of a few misguided men. The confidence of Government in the good sense of India has already been in a great measure justified by the unanimity of her best minds in their condemnation

of the folly of non-co-operation. For a most weighty body of educated opinion has rejected this new doctrine as one that is fraught with most mischievous potentialities for India. But having failed to secure a favourable verdict from educated India the leaders of the movement have now been driven to increase the violence of their appeal to the masses and to endeavour to enlist under the danner of non-co-operation the sympathy and assistance of immature school boys and college students.

TWO GREAT DANGERS.

Herein lie two great dangers for India which have compelled Government to place the issues plainly before the country in the hope that its most enlightened and stable elements may clearly recognise the necessity of vigorous and united action to prevent a further extension of the mischief. Of these two latest developments the most immoral is undoubtedly the mischievous attack which has been made on the youth of the country who are to be sacrificed to the exigencies of a political campaign. It matters not to the leaders of the movement, if the foundations of home life are sapped and children set against their parents and teachers, provided their own ends are attained and the success of their campaign assured. The appeal to the illiterate and the ignorant is also fraught with very grave danger. It has already resulted in at least one deplorable crime and it is certain that the restless activity of the leaders who wander from one city to another stirring up excitement amongst the masses by inflammatory speeches and by the reiteration of false statements despite constant contradiction may at any moment result in serious outbreaks of disorder. The best weapon to combat both dangers lies in the practical help and sympathy of sober minded and moderate men and the Government therefore call on all who have the good of India at heart to organise themselves and take concerted measures to assist the cause of law and order by active opposition to the movement, by the exercise of their influence over the minds of the ignorant and the immature and by public exposure and denunciation of the evils of non-co-operation and of the anarchy to which it must inevitably lead. Government appreciate the action which has already been taken in this direction by men of liberal opinion and moderate mind throughout India and they congratulate the country more particularly on the manifestations of public displeasure which have occurred in regard to the mischievous attack on education. The opposition which has been offered to this phase of the movement by the trustees of the M. A. O. College at Aligarh, by the authorities of the Khalsa College, Amritsar, by many other school authorities, by the great majority of teachers and parents and also by large sections of the student community itself is indeed a most hopeful feature in the situation. The Government realise that it is to enlightened public opinion they must chiefly trust for the dissipation of the danger that now envelopes India as it is on that same public opinion that India's political future must depend. It is in this trust that they have refrained in the past so far as is consistent with the public safety from repressive action, for, they consider that such action should only be employed in the last resort when indeed failure to adopt it would be a criminal betrayal of the people. How long, with due regard to their ultimate responsibility for the public safety, Government will be able to maintain that policy will depend largely on the success which attends the efforts of the moderate citizens to check the extension of the movement and keep its dangers within bounds."

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2-4-0 per annum will have Parts I, I-A, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

NOTIFICATIONS.

GENERAL.

No. G. 9489—P.P. 82-20-4, dated 15th November 1920.

In continuation of Government Notification No. G. 8819—P.P. 82-20-2, dated 30th October 1920, the following Notification No. 6636, dated the 2nd October 1920, and Press Communique dated 20th September 1920 issued by the Government of India in the Department of Commerce are hereby republished for general information.

Notification.

In the exercise of the powers conferred by clause 1 ofthe Order of the King's Most Excellent Majesty in Council dated the 13th August 1920, the Governor-General in Council, with the approval of the Right Honourable the Secretary of State for India in Council, is pleased to appoint Sir William Stevenson, Meyer, G.C.I.E., K.C.S.I., as High Commissioner for India in the United Kingdom with effect from the 1st October 1920.

Press Communique.

1. Section 35 of the Government of India Act, 1919, provides for the creation, by Order in Council, of a High Commissioner for India in the United Kingdom.

2. This section was inserted on the recommendation of Lord Crew's Committee on the Home Administration of Indian affairs. Lord Crew's Committee proposed and the proposal was endorsed by the Joint Committee of both Houses which was appointed to consider the Bill which subsequently passed into law as the Government of India Act, 1919, that the Government of India should have a special representative of high status in London who would eventually take over all work hitherto done by the India Office for the Indian Government which is of an agency, as opposed to a political and administrative character, *i.e.*, in which the India Office ordinarily carry out the wishes of the Indian Government without question.

3. The further developments of the functions and powers of the High Commissioner and his gradual approximation to the position of a High Commissioner to the self-governing Dominions, will naturally depend upon the changes which may ensue in the relations of the Government of India to the Secretary of State and Parliament.

4. It has now been decided by the Government of India and His Majesty's Government that the time has come for making a beginning in the direction described above, by the appointment of a High Commissioner and that appointment has been created and its general functions and status defined by an order in Council, approved by His Imperial Majesty the King.

5. The High Commissioner, who will be subordinate to the Government of India will at the outset, take up the control of the large Stores Department of the India Office and the accounts section, connected therewith and the Indian Students Branch. He will also supervise the work of the Indian Trade Commissioner already located in the City. When these arrangements are in satisfactory working order, the Secretary of State for India, will, in conjunction with the Government of India, decide what further work of an agency character, for instance such matters as the payment of leave and pension allowances can be transferred from the India Office to the High Commissioner and from what date.

6. The Order in Council prescribes that the appointment of the High Commissionership shall be made by the Governor-General of India in Council, with the approval of the Secretary of State for India in Council, and the Government of India have nominated as the first holder of the appointment Sir William Meyer, G.C.I.E., K.C.S.I., formerly a member of the Governor-General's Executive Council. This nomination has been approved by the Secretary of State for India. A Secretary will be attached to the High Commissioner and the first holder of the appointment will be an Indian gentleman namely, Mr. J. W. Bhore, C.B.E., I.C.S. At the outset, the officers and clerks will be mainly those hitherto employed in the India Office on the work now to be taken over but, as the time goes on, the High Commissioner will fill up vacancies and provide for new posts which expansion of work may involve by independent recruitment under orders of the Government of India.

7. The High Commissioner will enter on his duties on the 1st October. He will have a separate office building which will probably be located at 42, Grosvenor Gardens. If this is not ready for his occupation by the date above mentioned, he will sit in the India Office, until it is.

By Order,

C. S. BALASUNDARAM IYER,

Chief Secretary to Government.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2-4-0 per annum will have Parts I, I-A, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

Draft bye-laws framed by the Hole-Narsipur Town Municipality under Section 48 (*j*) of the Mysore Municipal Regulation, VII of 1906, as amended by Regulation V of 1918.

1. In these Bye-laws the word *person* includes a Firm, Company or Association.

2. Every person resident within the jurisdiction of the Municipality holding any office or appointment, public or private or employed in any capacity, whose pay, salary or pension amounts to Rs. 30 or upwards a month and every person who exercises any profession or carries on any trade or dealing within the limits of the Municipality and every person falling under any of the denominations mentioned in schedule III of Regulation VII of 1906 as amended by Regulation V of 1918, whose income is estimated to amount to Rs. 30 or upwards a month shall pay to the Municipality a tax on his art, profession, trade, calling, office or appointment at rates mentioned in the schedule referred to above.

3. Persons whose average monthly income or pay is less than Rs. 30 are exempt from the tax.

4. The maximum and minimum tax leviable under these rules will be Rs. 100 and Re. 1 respectively.

5. When a person exercises more than one profession or carries more than one trade or dealing whether under the same name or under different names, the tax shall be calculated on his total annual income or profits from all such sources subject to the provisions of Rule 4 above.

6. Where a family consists of more than one earning adult member, and all such persons carry on trade or deal or earn separately and the earning go to the joint family the tax leviable will be computed on the aggregate of earnings of all the members of the said family.

7. Persons who though exercising a profession or carrying on trade or dealing in the Municipality do not actually reside within Municipal limits are subject to the following conditions in respect of payment of tax.

(*a*) Where the average monthly income exceeds Rs. 30 but does not exceed Rs. 60 the tax leviable on them will be Re. 1 per annum.

(*b*) In all other cases one moiety of the usual rate.

(*c*) Persons who carry on trade or dealing temporarily for short periods and who trade or deal by travelling from place to place such as travellers, dealers in metallic vessels, etc., shall be required to pay a tax calculated at the rate of 8 annas per Rs. 100 upon the average profits of their trade during the period of their trade within the Municipal limits subject to a minimum of Re. 1 irrespective of the amount of their profits.

The Municipal Council may if it is satisfied that any person is a permanent resident of the municipality not likely to leave the municipal limits under normal circumstances, and that therefore such person may be allowed to pay the tax after the period of six months instead of in advance, allow such person to pay the tax after the close of the half-year. Every such case will be considered upon the written application of the person concerned.

14. Memo No. 685-91, dated 26th October 1920, from the Secretary, Economic Development Board, forwarding for remarks copy of his letter to Deputy Commissioner,

Chitaldrug District, enquiring why the Boards should not meet the travelling allowance of the members of the Taluk Boards for attending to Economic Development work in taluks from their sanctioned grants, as no allotment could be made for the purpose.

Resolution.—As the larger number of meetings and their greater duration are adding substantially to the expenditure of local bodies on travelling allowance and batta, the Board is of opinion that a grant may be sanctioned by Government to meet the increased expenditure consequent on the Government Order re-organization.

7. Read Chief Secretary's letter No. 850-7—Sany., dated 12-7-1920, forwarding for opinion the Sanitary Commissioner's note on the question of relieving Sanitary Inspectors of all but their legitimate duties (deferred at the last meeting).

Read also the opinions received from the Presidents of the Taluk Boards of Bangalore, Anekal, Channapatna, Nelamangala, Hoskote, Devanhalli, Magadi and Dodballapur.

The Honorary Vice-President of the Bangalore District Board was of opinion that the present system should continue, and that the Sanitary Inspectors should for the present attend to the supervision of works which are very little and also works of sanitary nature till a separate Engineering Establishment is sanctioned for the District Board. If they are divested of this now alone, the Board will have to employ an establishment consisting of a Sub-Overseer, etc., costing nearly Rs. 6,000 a year. In all matters relating to sanitation the District Sanitary Officer will be consulted, and his instructions will be communicated to the taluks for strict adoption.

Resolution.—The Sanitary Inspector should work under the immediate subordination of Presidents of Taluk Boards, and as before, the Deputy Commissioner and President, District Board, as a final authority will exercise disciplinary control over them. The tour programme, diary and other papers relating to the work of the Sanitary Inspectors and their leave, transfer and increments may pass through the District Sanitary Officer practically as Assistant or Secretary to the Deputy Commissioner in sanitary matters.

One for the Office and two for the Secretary. Since the Secretary has got a separate office for the Economic Development work, and the cost of establishment is paid from General Revenues and all the peons are detailed under him, the Board resolved that Government may be pleased to reconsider their order, and sanction two peons, one on Rs. 9 and the other on Rs. 8 to do the orderly duties with the Vice-President, and for helping in the expanded office work, as originally resolved by the Board at their meeting held on the 31st January 1920, as the establishment sanctioned in the Government Order of 6th July 1920 is solely for Economic Development work and not District Board work proper which is suffering for want of the men now sanctioned by the Board.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Resurvey and Resettlements of Certain Villages in the Mysore District.

OFFICIAL MEMORANDUM.

No. R. 4860-4—*L. R.* 41-19-56, *dated 6th October* 1920.

With reference to Government Order and the correspondence noted in the margin, relating to the introduction of resurvey and resettlement into certain villages of Mysore, Seringapatam and Krishnarajpete Taluks and French Rocks Sub-Taluk commanded by the channels from the Krishnarajasagara, Government are pleased to observe as follows :—

Government Order No. R. 5151-4—L. R. 41-19-13, dated 3rd November 1919, directing the resurvey and resettlement of the 74 villages in Mysore, Seringapatam and Krishnarajapete Taluks and the French Rocks Sub-Taluk commanded by the channels from the Krishnarajasagara.

Letter No. 1668, dated 4th December 1919, from the Chief Engineer, Cauvery Valley Irrigation, suggesting that the scope and intention of the resettlement operations directed in the Government Order read above, be clearly defined and a declaration issued to the effect that the said operation does not include hot weather supply, as otherwise, there is very little chance of the raiyats in the villages to be resurveyed and resettled coming forward to pay contribution and water-rate for the block system of irrigation.

Correspondence ending with letter No. 10068, dated 19th March 1920, from the Chief Engineer of Mysore on the subject.

With a view to arrive at a decision as to the lines on which the resettlement of the villages commanded by the Krishnarajasagara should be conducted, a Committee consisting of the officers (marginally noted) was appointed with the Chief Engineer, as Chairman, for discussing the details and submitting recommendations in the matter for the orders of Government. The Chief Engineer accordingly submitted a copy of the proceedings of the meeting of the Committee held on 7th February 1920. The alternative proposals relating to the question considered by the Committee are as follows :—

Chief Engineer.
Chief Engineer, Cauvery Valley Irrigation.
Revenue Commmissioner.
Superintendent, Revenue Survey and Settlements in Mysore.
Secretary to Government, Revenue Department.

(1) To adhere to the old classifications adopted in the previous survey and to revise old rates suitably to meet existing conditions, taking into consideration various factors that usually enter into such revision, and try to work the block system

under the conditions and restrictions laid down in G. O. No. R. 1-15—L. R. 448-10, dated 26th April 1919.

(2) To confine the revision settlement rates only to monsoon crop, or

(3) To consider the exceptional nature of irrigation facilities for continuous and assured supply to be created shortly, to engineer the proposed Irrigation Act through the Legislative Council, and to take powers to separate land or soil rates from water rates as has been done under all the productive irrigation works in the Bombay Presidency, the system of Revenue Survey and Settlement in which Province, have been adopted in Mysore.

The Committee have expressed the opinion that proposals (1) and (2) are not feasible for reasons stated, and accepting proposal, (3) they recommend that the resettlement may be confined to fixing soil rates only leaving the question of water-rates both for the monsoon and hot weather supply to the Irrigation Department, the amount of water-rate being fixed at Rs. 5 and 6 per acre for the two periods of supply respectively, to start with, for a period of six years, the rates being subject to revision thereafter at such intervals as the Government may fix, say every decade.

The Survey Superintendent, however, considers that legislation is not necessary to invest Government with powers to direct the separation of land or soil rates from water-rates.

Government have carefully considered the question and are unable to accept the recommendation of the Committee to separate land or soil rates from water rates during resettlement as it involves a complete departure from the existing system of revenue settlement in force in the State and the Government are not prepared to effect a change of system in respect of the special area in question. Nor does the second alternative of confirming the revision settlement rates only to the monsoon crop, in respect of all wet lands including the established sugarcane tracts, commend itself to Government.

In the foregoing circumstances, the Government are pleased to direct that the resettlement operations in the villages commanded by the channels from the Krishnarajasagara should be effected in the manner as indicated below :—

I. *Dry lands.*—These will be resettled under the usual conditions of resettlement and will continue to be classed as "dry" subject to the levy of water-rate under the rules framed, or that may hereafter be framed, in this behalf. They may, however, be classed as "wet" if they have been so cultivated with wet crops during the past five years, or more, and they shall however be liable to enhanced assessment if they make use of the channel water for raising crop during the hot weather.

II. *Monsoon supply ("Wet") Lands.*—In the case of these lands also, ordinary resettlement principles will be followed. Hot weather supply need not be considered in fixing the new rates. When the reservoir and channels schemes are completely developed and hot-weather supply is made available, Government will have the right to levy extra water-rate under the rules for such supply to be framed for the purpose.

III. *Lands entitled, by mamul, to hot-weather supply.*—Revision will be based on two considerations, *viz.* (i) increase of assessment due to resettlement under the ordinary principles and (ii) an additional percentage of increase on accounts of the assured (or guaranteed) hot-weather supply. When in any year, it is found that such supply cannot be given to any lands a proportionate rebate will be allowed in respect of such additional percentage.

The Survey Superintendent will obtain from the Revenue Commissioner exact particulars regarding the lands classed as surgarcane tracts entitled to hot-weather supply at the last settlement, and also regarding the lands on which, sugarcane had been actually cultivated at any time since the settlement. The Chief Engineer (Irrigation) will then be consulted and decision arrived at as to the lands which may be given the asurance (or guarantee) of hot-weather supply, at the resettlement, along with the concession of rebate attached thereto as explained above.

The Survey Superintendent need not concern himself with the question of the block system. He will proceed with the resettlement operations as expeditiously as possible on the lines indicated above issuing the necessary confidential instructions to the departmental officers concerned.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 9th October 1920.

Brief abstract of the special reports regarding the food situation for the week ending 9th October 1920.

Bangalore City.—During the week under report 132 carts of ragi and 27 carts of paddy came into the bazaar as against 156 carts of ragi and 28 carts of paddy in the previous week.

The price of ragi ranged from Rs. 76 to Rs. 83 per cart during the week against Rs. 74 to Rs. 88 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depôts are selling Rangoon rice to the poor. The importers are selling rice to the public at their depots.

Mysore City.—The market is fairly supplied. Second class rice is being sold at 4½ seers a rupee, and ragi at 8 seers a rupee.

Bangalore District.—The standing crops are reported to be in good condition. Weeding operations are nearing completion.

The markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue as high as during the last four months.

Mysore District.—The outlook as regards crop is very encouraging everywhere.

There have been good rains throughout the district. No change in prices.

Tumkur District.—There was good rain in all the taluks except Pavagada. Standing crops are in good condition. Prices show a tendency to decline and ragi is selling at Rs. 75 to Rs. 79 a cart-load. Supplies are adequate.

Kolar District.—This has been another week of satisfactory rainfall. The dry crops are very good.

In the few Government Depots which have some stock, the demand for Burma rice is very slack.

The prices of food grains do not show any tendency to go down.

Hassan District.—There was a light fall of rain in parts of the district during the week. The markets were fairly well supplied with food grains. Standing crops are in a good condition.

Prices of food grains continue to be high.

The prospects of the season are generally good for the present. More rain is needed for the standing crops.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities to meet the local demand. In the Koppa Taluk, ragi was sold at 8 seers a rupee as against 7½ seers in the previous week. Except in this respect, there was no change in the price of food stuffs.

Shimoga District.—During the week there was rain all over the district which considerably improved the situation. Agricultural prospects seem to be good. The food situation remains unchanged.

Chitaldrug District.—There was heavy rainfall during the week throughout the district and the seasonal conditions have greatly improved. The standing crops are in good condition. Harrowing and weeding operations are going on.

There has also been a slight fall in the prices of food grains. The markets are receiving good supplies of grains.

General (By Food Controller.)—There has been some good fall of rain during the week in all the districts and the condition of the standing crops is good.

The supply in the markets is reported to have been quite ample. In the Chitaldrug District and in the Koppa Taluk prices have shown a tendency to fall though very slightly. In other places prices remain the same as in last week.

The demand for Burma rice is slack throughout the State except in the Civil and Military Station only where it continues as before. The Provincial Grain Depot is issuing Burma rice as heretofore and the Test Depots in the Bangalore City are continuing to sell rice to the Public.

Miras to Toties and Talaries.

Read—

Government Order No. R. 6292-302—L. R. 369-10-4, dated the 31st December 1915, passing orders on the question of payment and the compulsory levy of miras to toties and talaries.

2. Representations brought forward at the Representative Assembly of 1917 and other sessions of the assembly, complaining on the one hand, that the payment of miras operates as a hardship on land owners for whom these village servants do no work, and on the other that the land-owners are not regularly giving the miras and that besides the rate of miras is insufficient.

3. The report of the Special Committee of the Representative Assembly appointed by Government to investigate the subject.

ORDER No. R. 5135-44—L. R. 419-17-6, DATED BANGALORE, 15TH OCTOBER 1920.

The Committee reported that the rate of three seers of grain per acre is very high, that the system has not worked satisfactorily and that the rates are in general a dead letter, and they accordingly submitted the following recommendations:—

(1) That the payment of remuneration of these village servants who do only Government work and no communal work is a legitimate charge on Government and the required funds should, therefore, be provided for from the General Revenues of the State,

(2) the cash remuneration which should be slightly less than that of patels should be in addition to the inam lands held by them,

(3) should Government however find it impracticable to meet the entire cash remuneration, the levy of a cess in proportion to the raiyats' half contribution may be orderd as a last resource.

2. The subject was considered at a meeting of the Deputy Commissioners and select Heads of Departments held in March 1920, wherein the following decision was arrived at:—

"The rules may be modified by ordering a levy equivalent to 2 annas in the rupee on dry and one anna on wet and garden assessment. The inams held must be made inalienable and impartible. The extent of land to be given as inam should not exceed 10 acres of dry, 3 or 5 acres of wet, in addition to the miras. The Representative Assembly members may be consulted with regard to the levy of a cess."

3. At the Representative Assembly of June 1920, the question was again warmly discussed and opinion was against the levy of the proposed cess.

4. Government have given the case their careful consideration and consider that the payment of cash remuneration at the cost of Government, either entirely or in equal shares, with the raiyats' cess is out of the question at present on account of the enormous cost involved. When however, resettlement operations show adequate progress resulting in an appreciable increase in the land revenue Government will be prepared to take up for favourable consideration this subject along with the general question of the revision of Village establishments.

5. In these circumstances, Government direct that the Order of 1915 read above may continue in force till such time as it will be possible for Government to provide for a paid staff of totis and talaris.

Levy of Income-tax.

READ—

Letter dated 4th October 1920, from Mr. M. Venkatakrishniah, President, Citizens' Meeting, Mysore City, forwarding, for the consideration of Government, a copy of the proceedings of the aforesaid meeting held on the 28th September last, in connection with the levy of Income-tax.

Government have carefully considered the several representations made by the deputation and are pleased to record their replies and observations in regard to each one of them as noted in the memo annexed to this order.

Necessary further instructions based on the above observations will be issued by the Commissioner of Income-tax.

Representation.	*Reply.*
1. Accounts are asked for 1919-20. Many tenders have not maintained any accounts, while those who have maintained some sort of accounts find it difficult to prepare a correct return.	The return of income for 1919-20 is for the purpose of making a preliminary assessment of the tax for 1920-21. When the final accounts for 1920-21 are available, necessary adjustments in the tax will be made with reference to the actual income for the year. So the Income-tax Department will be satisfied if, in such cases, reasonably approximate accounts are submitted. If there appears to be great disparity between the return submitted and what is believed to be the true income, the Income-tax Collector will send for the parties and if the parties assure the Collector that the return already submitted represents the true income, such assurance will ordinarily be accepted.
2. The form of notice referring to penalties in case of submission of inaccurate returns is unduly severe.	The form of notice follows the wording of the Regulation: in actual working there will be no severity.
3. Interest on one's own capital put in business should be deducted from profits.	There is no justification for this. If the interest is deducted from the "profits of the business" it will still have to be taxed under "other sources."
4. Members of the family who work in a shop are not given any salaries, but their expenses have to be met. No allowance is also made for expenditure of a charitable nature. To meet all these a rebate of 25 per cent of the profits should be allowed and tax levied only on the balance or the first 2,400 rupees may be excluded from taxation.	This is not possible under the Regulation. The Regulation follows the lines of the British Indian Act, but the rates of tax in Mysore are very much lower than in British India. If rebates are to be allowed it may be necessary to raise the rates of taxation. The point will however be noted for consideration when the Regulation is next taken up for amendment.
5. Tax should not be levied on the rental value of the house occupied by the owner.	There is no reason to exempt the income from investments in the shape of house property. The point is however noted for consideration when the Regulation is taken up for amendment.
6. It appears that stamp duty at the rate of one rupee or eight annas will have to be paid in respect of appeals and petitions in regard to Income-tax matters. It should be ordered that no stamp duty need be paid.	This cannot be done as stamp duties are levied by law for purposes of revenue. In prescribing a schedule of rates moderate rates of duty will be fixed.
7. The provision regarding a fine of Rs. 10 per day in case returns are not submitted should be held in abeyance for two years.	This not is possible. A penal provision is necessary, but it will be worked only in a considerate manner. It is only in case of persons who are recalcitrant that there will be any necessity to prosecute. Prosecution will be ordered by high officials and only First Class Magistrates will ordinarily try cases.
8. The assessees in Mysore City should not be asked to produce their accounts before the Special Collector in Bangalore.	The Special Collector will spend about half the month at Mysore City where he will have an office. If assessees are called upon by the Special Collector to produce books of accounts he will not require their production in Bangalore but only at Mysore City.

9. There should be a Board of officials to hear appeals from the Commissioner of Income-tax.

This is not necessary. Government is the authority next above the Commissioner and it will be open to assessees to bring up any cases to Government by means of revision petitions.

10. In view of the levy of the Income-tax Octroi duties in Municipalities should be abolished.

This is a matter for consideration and representations through the Municipal Councils concerned.

11. It is not convenient to close the accounts for the official year. Merchants may be permitted to submit their accounts for the calendar year.

Accounts to be submitted for the "previous year" may be either for the previous official year or for the previous calendar year or for the year beginning and ending with Yugadi or for the Marwari year beginning and ending with Dipavali as may be elected by the assessees. This is allowed by the Regulation.

12. The Special Collector has, in some instances refused to give extension of time for submission of returns of income. Extension of time may be given up to end of December.

Extension of time up to the end of November will be given.

13. The forms of return are very complicated and assessees may be permitted to give their total income in a lumpsum without details.

It will be sufficint if information as to income under main heads is given. All reasonable help to prepare accounts will be given by the Income-tax staff.

14. Bad debts should be deducted from profits and tax should be levied only on income actually received.

Bad debts when actually written off the accounts may be deducted from the profits. This is provided for in the rules.

Income accrued, but not actually received, will not be assessed unless it has been credited in the accounts.

15. It is a great hardship that the income of Joint-Stock Companies is taxed at the maximum rate of one anna and that shareholders who are not liable to be taxed at this rate have to obtain refunds. The income of the individual shareholders only should be taxed or if this is not possible at least arrangements may be made to grant refunds on applications sent through the companies concerned.

It is not possibe to give up the system of taxation at the source in such cases as that would result in a considerable amount of income escaping taxation; but endeavours will be made to have the refund procedure simplified as much as possible. There would be no objection to refund applications being entertained if sent through the Companies concerned.

Brief abstract of the special reports regarding the food situation for the week ending 16th October 1920.

Bangalore City.—During the week under the report 160 carts of ragi and 25 carts of paddy came into the bazaar as against 132 carts of ragi and 27 carts of paddy in the previous week.

The price of ragi ranged from Rs. 76 to Rs. 86 per cart during the week against Rs. 76 to Rs. 83 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their Depots.

Mysore City.—The market is fairly supplied. Second class rice is being sold at 4½ seers a rupee and ragi at 8 seers a rupee.

Bangalore District.—No rainfall in the district during the week under report.

The standing crops are reported to be in good condition. Weeding operations are nearing completion. Markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue as high as during the last four months.

Mysore District.—No change, and there has been no rainfall. Some good showers now would be very beneficial.

Tumkur District.—There was no rain anywhere in the district, except Sira during this week. Price of ragi has gone up from Rs. 75 to 80 per cart load and that of rice remains the same as in the last week. All the grain depots in the district have been closed.

Kolar District.—No rainfall, but the dry crops, however, are in good condition. The demand for Burma rice is very slack as local rice is available.

The prices of food grains remain unchanged.

Hassan District.—No appreciable rainfall during this week. The markets were fairly well supplied with food grains. Standing crops are in a good condition.

The prospects of the season are generally good for the present, but more rain is needed for the standing crops.

The prices of food grains continue to be high.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities to meet the local requirements but there was no change in their prices. The standing crops are fading for want of rain.

Shimoga District.—Rain is wanted almost everywhere in the district, especially for the paddy crop. The food situation remains unchanged.

Chitaldrug District.—No rainfall nor has there been any marked change in the prices of food grains.

The seasonal conditions are so far free from anxiety.

General (By Food Controller.)—There was hardly any rainfall during the week. Standing crops are reported to be generally in good condition, but rain is urgently wanted.

The supply of food stuffs in the markets is reported to be sufficient. The prices of ragi and rice have risen slightly in the Bangalore City and in Tumkur to Rs. 80.

The demand for Burma rice continues to be slack. The issue from the Provincial Grain Depot of Burma whole rice and brokens to merchants, co-operative societies and private individuals for domestic consumption is continued.

PRESS COMMUNIQUE.

The attention of Government has been drawn to a certain statement in the newspapers that owing to the non-receipt of interest on Government of India War Bonds, the holders thereof are intending to sell them for less than their market value. Government do not understand the exact nature of the difficulty of the bond-holders in realising interest on them. In order to make the position clear, the following statement of the manner in which interest can be drawn on the different kinds of securities, is issued for the information of the public.

2. *First Indian War Loan issued in 1917.*—Interest on the Government Securities of this loan excepting those in the shape of Stock Certificates, can be drawn by the holders from any of the treasuries in the Mysore State selected by them. They are advised to apply to the Officer in charge of the Hon'ble the Resident's Treasury, Bangalore, mentioning the amount, number and nature of the bonds they hold and the treasury (district or taluk) where they desire to draw interest, the bonds being sent with the application. That officer will instruct the treasury concerned and also inform the party of the arrangements made.

3. *Second Indian War Loan issued in 1918.*—Interest on the bonds for this loan, excepting those in the shape of Stock Certificates will be paid in any of the local treasuries of the State without further formality. All that the party has to do is to present a receipt in the prescribed form along with the bond, at the treasury selected. Such of the holders as desire to get the interest on War Bonds remitted to them periodically, may deposit their bonds at the Bank of Mysore which will draw the amount of interest half-yearly and remit it to them by postal money order deducting a very small commission.

4. Those who hold Stock Certificates will get interest warrants periodically from the Public Debt Office, Madras, enfaced for payment at any treasury named by them.

5. The above procedure is equally applicable to the drawing of interest on all Government of India Promissory Notes.

Financial Secretary to Government.

Compensation Leave.

ORDER NO. FL. C. 91-140—S. & A. 129-1920-1, DATED CAMP MYSORE, 23RD OCTOBER 1920.

At present several officers and officials have to attend office on public authorised holidays and have also to be on duty during Dasara and Christmas Holidays without being permitted to avail themselves of the same. Government consider it necessary that some consideration should be shown to such officers and officials, who are denied the use of holidays on account of the exigencies of the public service. They are accordingly pleased to direct that a Government servant who is called upon to attend office on a public authorised holiday, except as a punishment, or who is refused permission to utilise the Dasara or Christmas holidays and is required to attend office and to be on duty during those holidays, ma y be granted another day or equivalent number of days in lieu thereof when opportunity offers.

2. In the grant of such compensation leave, the following rules should be observed :—

(1) Such holidays may not be taken by any Government servant without the previous permission of the authority who is competent to grant him casual leave. An officer who is allowed to avail himself of casual leave without obtaining the previous permission of higher authority should intimate his intention of taking such a holiday to the authority to whom he makes similar intimations in respect of casual leave.

(2) Not more than ten such holidays in all may be taken in an official year and no such holidays shall be taken after the expiry of six months from the public holiday for which it is substituted. It will, however, be within the discretion of the head of an office to call on the subordinate affected to take such holiday on any date within the six months which the head of the office finds to be convenient.

(3) Not more than seven such holidays may be accumulated and a lower number may be fixed in his discretion by the head of the Office.

(4) Such holidays may be combined with casual leave or other authorised holidays, provided that the total period of absence from duty shall not exceed ten days.

(5) Gazetted officers, who are subordinates in an office, may be granted such holidays under the foregoing rules. In the case of a gazetted officer in independent charge of an office the same rules will apply, but if the permission of any authority to take a holiday is necessary under rule 1 above such authority should, before granting the required permission, satisfy himself that, owing to the exigencies of the public service, the said gazetted officer was unable to avail himself of the public holiday in lieu of which he applies for permission to take a holiday under para 1 above.

These rules will have effect from 1st October 1920 and will be incorporated in the Mysore Service Regulations (5th Edition) under print.

Revision of the Assessment of Goribidnur Taluk.

READ—

Government Proceedings No. 1413-24—Rev. 272, dated 11th June 1880, sanctioning the original settlement of the old Goribidnur Taluk in the Kolar District.

2. Letter No. 238, dated 9th May 1919, from the Superintendent of Revenue Survey and Settlements in Mysore, submitting proposals for the resettlement of the taluk referred to above.

3. Correspondence ending with letter No. 67, dated 2nd September 1920, from the same officer, forwarding with his remarks the opinions of the Deputy Commissioner and the Revenue Commissioner in the matter.

ORDER No. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

The proposals relate to the revision of the assessment of 89 Government villages of which 82 are in the present Goribidnur Taluk and the remaining seven in the Dodballapur Taluk.

The tract is irregular in shape, measures about 152 square miles and consists mostly of bare plain country, except for little hilly spaces in the west and south-east. The climate is healthy. The rainfall is poor but cannot be regarded as deficient.

3. The tract is well irrigated by numerous channels drawn from the Pinakini river. There are also a large number of wells, 28 major and 25 minor tanks, all of which (except one minor tank) have been restored.

4. Ragi and jola are the staple dry crops. Rice and sugar-cane are extensively cultivated. Vegetables, turmeric and chillies form the principal garden produce, while, sugar-cane and paddy are also raised on garden lands.

5. The taluk is well served with means of communication. The most important improvement effected since the original settlement, is the opening of the Bangalore-Guntakal Railway, with two stations in the taluk. Three good metal roads have also been added to the pre-existing three important roads. There are, besides, numerous cart tracks connecting the interior villages.

6. Like the rest of the Kolar District, this taluk also suffered much from the effects of the great famine in 1878. The population went down from 34,404 in 1871 to 25,708 in 1881. Thereafter, it has however been steadily increasing by about 5,000 for every decennium, until it has reached 40,372 in 1911. This marked recuperation is said to be due to a general run of favourable seasons, good soil and facilities of irrigation and communication, etc.

7. The several improvements in the conditions of the taluk referred to above, have naturally increased the agricultural and other resources of the tract. The number of houses, cattle, carts and ploughs have increased by 99, 3, 160 and 82 per cent, respectively since the original settlement. The value of land and the prices of food-stuffs, etc., have also correspondingly increased. The revenue history of the taluk is of a very satisfactory nature, due evidently to the leniency of the current settlement.

8. The Survey Superintendent has proposed the following revised rates keeping intact the old grouping of lands under two heads.

Land	Maximum rate per acre		Average rate per acre	
	Original	Revised	Original	Revised
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet I ...	8 8 0	8 8 0	5 5 1	5 5 7
II ...	8 0 0	8 8 0	5 0 3	5 4 2
Dry I ...	2 2 0	2 8 0	1 0 10	1 3 9
II ...	1 14 0	2 4 0	0 13 10	1 0 6
Garden	16 0 0	12 0 0	5 3 11	4 11 7
General average ...	...	...	2 1 1	2 2 9

The general average rate per acre is increased by Re. 0-1-8 or 5 per cent, thereby resulting in a net increase of Rs. 4,969 per annum, over the present revenue.

9. No objections to the revised rates are said to have been received from the raiyats in response to the preliminary notifications of resettlement published in the concerned villages. The Sub-Division Officer, Chikballapur, and the Deputy Commissioner, Kolar District, consider that the proposed wet and dry maximum rates for the villages in the second group may be reduced by four annas each, but the Revenue Commissioner does not support the reduction recommended above. He is agreeable to the revised rates proposed by the Survey Superintendent, but suggests that the classification of lands under wet and garden may be revised as certain lands in the Chikballapur Taluk which should properly come under the former class, are said to have been included under the latter. The Survey Superintendent, however, has assured Government that every care has been bestowed on the matter and that, if necessary, individual cases of real hardship will be duly readjusted at the time of announcing the revised rates.

10. The revised rates proposed by the Survey Superintendent are in keeping with these prevailing in the adjoining tracts and mut also be considered as commensurate with the appreciable improvement of the agricultural and other resources of the taluk during the currency of the present settlement. Government are therefore pleased to sanction in their entirety the said revised rates which will be announced as soon as possible and brought into effect from the year 1921-22 with the usual guarantee of thirty years.

3. Correspondence ending with letter No. 53, dated 23rd August 1920, from the same office on the same subject.

ORDER No. R. 5453-64—L. S. 42-18-4, DATED 30TH OCTOBER 1920.

The proposals relate to the revision of the assessment of 232 Government villages, all of which lie in the present Magadi Taluk, except one village Vadavatta, which belongs to the present Closepet Sub-Taluk.

2. The taluk is almost rectangular in shape measuring about 22 miles, north to south and 14 miles east to west, with a good and healthy climate, except in the hilly and jungle tracts in the south. The rainfall is on the whole good. The soil is mediocre but is greatly improved by a fairly copious rainfall.

3. Ragi and avare are the principal dry crops, the wet lands being mostly cultivated with paddy and sugar-cane also to some extent. There is not much garden cultivation, but what there is, consists chiefly of betel vine, cocoanut, areca, etc.

4. The Arkavati flows through the taluk in a deep ravine and is of little use for irrigation, which depends solely on tanks and wells. There are 202 tanks (of which 21 are major) and 1,533 wells, of which 658 are used for irrigation.

5. The taluk is well supplied with roads, two important new roads having been added (to the existing 3 main roads) since the original settlement. There are also numerous cart-tracks connecting the several villages in the taluk. The railway line runs close to the border of the taluk.

6. The population of the taluk fell from 68,605 in 1871 to 40,344 in 1881, owing to the great famine of 1878, but it steadily rose to 67,790, in 1911.

7. The agricultural resources of the taluk have improved since the original settlement.

	Increase per cent.
Houses ..	.. 55
Cattle ..	.. 23
Carts ..	.. 95

The value of land has increased and the prices of food stuffs, etc., have nearly doubled themselves. There has been a steady increase in all kinds of cultivation and the revenue history of the taluk is of a very encouraging kind, chiefly due to the leniency of the current settlement.

8. The Survey Superintendent proposes to revise the original rates as shown below, keeping intact the existing grouping of the villages under three heads.

Land	Maximum rate per acre						Average per acre

The above proposals involve an increase of Re. 0-1-11 or 9 per cent in the general average rate per acre and are estimated to result in an aggregate increase of Rs. 10,528 over the present annual revenue.

9. The rates proposed above were duly notified for the information of the raiyats concerned, none of whom, however, are reported to have taken objection thereto. The Assistant Commissioner in charge of the Bangalore District, vaguely recommends a more "lenient" rata, but he does not indicate where and how the proposed rates are hard. The Revenue Commissioner agrees to the revised wet rates but recommends an increase of only 2 annas (against 4 annas proposed) to the existing dry maximum rate. The Survey Superintenden however points out that the increase of 4 annas in the maximum average referred to above, is only normal and that when actually worked out on lands, the increase amounts to only 2 annas. The revised rates proposed by the Survey Superintendent compare favorably with those sanctioned for the adjoining taluks and are only very slightly in excess of the existing rates, which are themselves lenient. The material and agricultural resources of the taluk, having appreciably improved since the original settlement and the increases in the rates proposed by the Survey Superintendent being moderate. Government are pleased to sanction in their entirety, the rates proposed by the Survey Superintendent, which will be announced as soon as possible and brought into effect from the year 1921-22, with the usual guarantee of thirty years.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 23rd October 1920.

Brief abstract of the special reports regarding the food situation for the week ending 23rd October 1920.

Bangalore City.—Report not received.

Mysore City.—The market is fairly supplied. Rice, second sort, is being sold at 4⅓ seers a rupee and ragi at 8½ seers a rupee.

Bangalore District.—Except for a few showers in Bangalore (2 cents), Kankanhalli (61 cents) and Closepet (8 cents), there has been no rain in other places. Rain is badly wanted throughout the district.

The standing crops are reported to be in good condition, but they are in urgent need of rain. Markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue to be high.

Mysore District.—No change. More rain is required throughout the district.

Tumkur District.—During the week there was no rain throughout the district, except 31 cents in Tiptur. Price of ragi was Rs. 85 per cart-load of 640 seers while that of paddy rose from Rs. 75 to Rs. 80. Rice, second sort, sold at 4 seers a rupee.

Kolar District.—There has been no rain during this week, and the people are getting anxious about the standing crops. The demand for Burma rice is very slack. There is no appreciable change in the price of food grains.

Hassan District.—There was a slight rainfall in parts of taluks during the week under report. The markets were fairly well supplied with food grains. Standing crops are reported to be in a good condition. More rain is urgently required for the standing crops.

Prices of food grains still continue to be high.

The prospects of the season are generally good for the present.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities but prices are high as usual. More rain is reported to be wanted in the Kadur Taluk and in the Narasimharajapura Sub-Taluk.

Shimoga District.—Except Channagiri, Honnali and Shimoga where there were a few showers, there was no rain in the district during the week. The want of rain is very keenly felt all over the district. The standing crops are likely to suffer if the rains hold off.

Chitaldrug District.—There were light showers in the taluks of Holalkere, Davangere, and Molakalmuru and also in the Harihar Sub-Taluk during the week.

There has been a very slight fall in the price of jola, while those of other food grains remain unchanged.

The seasonal conditions are fair so far. One or two more heavy showers are needed urgently.

General (By Food Controller.)—There was hardly any rain during the week and standing crops are reported to be in urgent need of rain and in some localities to be withering.

The markets were well supplied and prices are about the same as in the previous year, except that ragi and rice have gone up by about Rs. 2 per cart-load in Bangalore City and in Tumkur.

The demand for Burma rice continues to be slack as in the previous week.

Revision of the Assessment of Goribidnur Taluk.

READ—

Government Proceedings No. 1413-24—Rev. 272, dated 11th June 1880, sanctioning the original settlement of the old Goribidnur Taluk in the Kolar District.

2. Letter No. 238, dated 9th May 1919, from the Superintendent of Revenue Survey and Settlements in Mysore, submitting proposals for the resettlement of the taluk referred to above.

3. Correspondence ending with letter No. 67, dated 2nd September 1920, from the same officer, forwarding with his remarks the opinions of the Deputy Commissioner and the Revenue Commissioner in the matter.

ORDER NO. R. 5440-52—L. S. 41-18-3, DATED 30TH OCTOBER 1920.

The proposals relate to the revision of the assessment of 89 Government villages of which 82 are in the present Goribidnur Taluk and the remaining seven in the Dodballapur Taluk.

The tract is irregular in shape, measures about 152 square miles and consists mostly of bare plain country, except for little hilly spaces in the west and south-east. The climate is healthy. The rainfall is poor but cannot be regarded as deficient.

3. The tract is well irrigated by numerous channels drawn from the Pinakini river. There are also a large number of wells, 28 major and 25 minor tanks, all of which (except one minor tank) have been restored.

4. Ragi and jola are the staple dry crops. Rice and sugar-cane are extensively cultivated. Vegetables, turmeric and chillies form the principal garden produce, while, sugar-cane and paddy are also raised on garden lands.

5. The taluk is well served with means of communication. The most important improvement effected since the original settlement, is the opening of the Bangalore-Guntakal Railway, with two stations in the taluk. Three good metal roads have also been added to the pre-existing three important roads. There are, besides, numerous cart tracks connecting the interior villages.

6. Like the rest of the Kolar District, this taluk also suffered much from the effects of the great famine in 1878. The population went down from 34,404 in 1871 to 25,708 in 1881. Thereafter, it has however been steadily increasing by about 5,000 for every decennium, until it has reached 40,372 in 1911. This marked recuperation is said to be due to a general run of favourable seasons, good soil and facilities of irrigation and communication, etc.

7. The several improvements in the conditions of the taluk referred to above, have naturally increased the agricultural and other resources of the tract. The number of houses, cattle, carts and ploughs have increased by 99, 3, 160 and 82 per cent, respectively since the original settlement. The value of land and the prices of food stuffs, etc., have also correspondingly increased. The revenue history of the taluk is of a very satisfactory nature, due evidently to the leniency of the current settlement.

8. The Survey Superintendent has proposed the following revised rates keeping intact the old grouping of lands under two heads.

Land	Maximum rate per acre		Average rate per acre	
	Original	Revised	Original	Revised
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet I ...	8 8 0	8 8 0	5 5 1	5 5 7
II ...	8 0 0	8 8 0	5 0 3	5 4 2
Dry I ...	2 2 0	2 8 0	1 0 10	1 3 9
II ...	1 14 0	2 4 0	0 13 10	1 0 6
Garden	16 0 0	12 0 0	5 3 11	4 11 7
General average ...	...	...	2 1 1	2 2 9

The general average rate per acre is increased by Re. 0-1-8 or 5 per cent, thereby resulting in a net increase of Rs. 4,969 per annum, over the present revenue.

9. No objections to the revised rates are said to have been received from the raiyats in response to the preliminary notifications of resettlement published in the concerned villages. The Sub-Division Officer, Chikballapur, and the Deputy Commissioner, Kolar District, consider that the proposed wet and dry maximum rates for the villages in the second group may be reduced by four annas each, but the Revenue Commissioner does not support the reduction recommended above. He is agreeable to the revised rates proposed by the Survey Superintendent, but suggests that the classification of lands under wet and garden may be revised as certain lands in the Chikballapur Taluk which should properly come under the former class, are said to have been included under the latter. The Survey Superintendent, however, has assured Government that every care has been bestowed on the matter and that, if necessary, individual cases of real hardship will be duly readjusted at the time of announcing the revised rates.

10. The revised rates proposed by the Survey Superintendent are in keeping with these prevailing in the adjoining tracts and mut also be considered as commensurate with the appreciable improvement of the agricultural and other resources of the taluk during the currency of the present settlement. Government are therefore pleased to sanction in their entirety the said revised rates which will be announced as soon as possible and brought into effect from the year 1921-22 with the usual guarantee of thirty years.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 30th October 1920.

Brief abstract of the special reports regarding the food situation for the week ending 30th October 1920.

Bangalore City.—During the week under report 159 carts of ragi and 30 carts of paddy came into the bazzar as against 141 carts of ragi and 24 carts of paddy in the previous week.

The price of ragi ranged from Rs. 79 to Rs. 88 per cart during the week against Rs. 79 to Rs. 85 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The Arlepet Test Depot will be closed with effect from 1st November 1920. The importers are also selling rice to the public at their depots.

Mysore City.—The market is fairly supplied. Rice, second class, is being sold at 4¼ seers a rupee and ragi at 9½ seers.

Bangalore District.—The district had good showers throughout.

The present rains have saved the ragi crop from withering. More rain is however wanted.

The standing crops are reported to be in good condition.

Markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue as high as in the last week.

Mysore District.—There have been excellent rains throughout the district and good crops are more or less assured. The food situation gives no cause for anxiety.

Tumkur District.—Except in the taluks of Tiptur and Pavagada there was rain throughout the district. Prices of food stuffs continue to be high. Ragi is selling at Rs. 85 a cart-load and paddy at Rs. 80. Rice second sort sells at 4 seers a rupee.

Kolar District.—There has been some timely rainfall in some of the taluks of the district which has much improved the condition of the standing dry-crops. More rain is wanted.

Markets are fairly well supplied. The demand for Burma rice is very slack, local rice being available from 4 to 4½ seers a rupee.

Hassan District.—There was a fairly good fall of rain generally all over the district.

The markets were fairly well-supplied with food grains. Standing crops are in a good condition. The recent rain did much good to the standing crops but still more rain is needed for them.

Prices of food grains still continue to be high.

The prospects of the season are generally good for the present.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities to meet local demand. In the Kadur and Koppa Taluks, rice was sold at 4¾ and 5¼ to 6½ seers a rupee respectively, as against 4½ and 5 to 6 seers in the previous week. This change in the price of rice seems to have been brought by the recent rains which fell all over the district, but in parts of the Tarikère Taluk more rain is reported to be wanted.

Shimoga District.—There has been no change in the food situation in the district.

Except in Shikarpur and Sorab, there were slight showers all over the district. Recent rains, though slight, have done some good in the taluks of Channagiri, Honnali and Kumsi. But more rain is reported to be urgently wanted.

Prices continue to be high.

Chitaldrug District.—There were good showers throughout the district, except in Harihar Sub-Taluk.

The prospects of the season are fair and encouraging. The prices of food grains have not altered to any appreciable degree.

General (by Food Controller).—Rainfall has been fairly general throughout the State and the standing crops have been greatly benefited. More rain is said to be required for the crops in parts of Shimoga, Kadur and Bangalore Districts.

The markets are reported to be well supplied. The demand for Burma rice in the districts has considerably gone down. But in the Bangalore City it has again increased owing to the price of local rice having gone up. This is attributed to the arrivals of paddy in Bangalore having greatly fallen off owing to the rush of Dasara passenger traffic on the railways. The price of ragi is almost the same as in last week. The Kadur District reports a fall in the price of rice.

Burma rice is being issued from the Provincial Grain Depot as heretofore to merchants, Co-operative Societies and private individuals for domestic consumption.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 30th October 1920.

Brief abstract of the special reports regarding the food situation for the week ending 30th October 1920.

Bangalore City.—During the week under report 159 carts of ragi and 30 carts of paddy came into the bazzar as against 141 carts of ragi and 24 carts of paddy in the previous week.

The price of ragi ranged from Rs. 79 to Rs. 88 per cart during the week against Rs. 79 to Rs. 85 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The Arlepet Test Depot will be closed with effect from 1st November 1920. The importers are also selling rice to the public at their depots.

Mysore City.—The market is fairly supplied. Rice, second class, is being sold at 4¼ seers a rupee and ragi at 9½ seers.

Bangalore District.—The district had good showers throughout.

The present rains have saved the ragi crop from withering. More rain is however wanted.

The standing crops are reported to be in good condition.

Markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue as high as in the last week.

Mysore District.—There have been excellent rains throughout the district and good crops are more or less assured. The food situation gives no cause for anxiety,

Tumkur District.—Except in the taluks of Tiptur and Pavagada there was rain throughout the district. Prices of food stuffs continue to be high. Ragi is selling at Rs. 85 a cart-load and paddy at Rs. 80. Rice second sort sells at 4 seers a rupee.

Kolar District.—There has been some timely rainfall in some of the taluks of the district which has much improved the condition of the standing dry crops. More rain is wanted.

Markets are fairly well supplied. The demand for Burma rice is very slack, local rice being available from 4 to 4½ seers a rupee.

Hassan District.—There was a fairly good fall of rain generally all over the district.

The markets were fairly well-supplied with food grains. Standing crops are in a good condition. The recent rain did much good to the standing crops but still more rain is needed for them.

Prices of food grains still continue to be high.

The prospects of the season are generally good for the present.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities to meet local demand. In the Kadur and Koppa Taluks, rice was sold at 4¾ and 5¼ to 6½ seers a rupee respectively, as against 4½ and 5 to 6 seers in the previous week. This change in the price of rice seems to have been brought by the recent rains which fell all over the district, but in parts of the Tarikére Taluk more rain is reported to be wanted.

Shimoga District.—There has been no change in the food situation in the district.

Except in Shikarpur and Sorab, there were slight showers all over the district. Recent rains, though slight, have done some good in the taluks of Channagiri, Honnali and Kumsi. But more rain is reported to be urgently wanted.

Prices continue to be high.

Chitaldrug District.—There were good showers throughout the district, except in Harihar Sub-Taluk.

The prospects of the season are fair and encouraging. The prices of food grains have not altered to any appreciable degree.

General (by Food Controller).—Rainfall has been fairly general throughout the State and the standing crops have been greatly benefited. More rain is said to be required for the crops in parts of Shimoga, Kadur and Bangalore Districts.

The markets are reported to be well supplied. The demand for Burma rice in the districts has considerably gone down. But in the Bangalore City it has again increased owing to the price of local rice having gone up. This is attributed to the arrivals of paddy in Bangalore having greatly fallen off owing to the rush of Dasara passenger traffic on the railways. The price of ragi is almost the same as in last week. The Kadur District reports a fall in the price of rice.

Burma rice is being issued from the Provincial Grain Depot as heretofore to merchants, Co-operative Societies and private individuals for domestic consumption.

Chief Secretary to Government.

Kolar District.—There was no appreciable rainfall in the district during the week under report. The condition of the standing crops continues to be quite promising.

The prospects of the season are generally good for the present.

Shimoga District.—No change. There was no rain in the district except for a slight shower in Sorab and it is reported that rain is badly wanted everywhere.

Amending Rules for Occupation of the Travellers' Bungalow at Mysore.

Government Order No. G. 41-91, G. M. 9-19-4, dated Camp Mysore, 28th September 1920, amending Rule (2) of Appendix II to the Government Order No. G. 4604-54—G. M. 314-17-1, dated 3rd October 1917, issuing rules for the occupation of the new travellers' bungalow at Mysore.

ORDER No. G. 9965-10025—G. M. 114-20-2, DATED BANGALORE, 22ND NOVEMBER 1920.

Government have reason to believe that the fee of Rs. 3 per diem now levied for the occupation of a suite of rooms in the new travellers' bungalow at Mysore is somewhat heavy, especially in the case of Government officers, Indian or European and they are therefore pleased to order that the fee be reduced from Rs. 3 to Rs. 2 per diem in the case of such officers.

Rule (2) of Appendix II of the Government Order read above will accordingly be amended so as to read as follows:—

"The fee for each person occupying a suite of rooms in the building shall be Rs. 2 per diem in the case of Government officers whether Indian or European and Rs. 3 per diem in the case of others, whether it is occupied for a whole day of 24 hours or fraction thereof. Two or more persons (whether married couples or not) occupying the same suite of rooms will pay half as much again as the full fee. Fees at the same rate will be levied for every additional occupancy of 24 hours or a fraction thereof."

Food Situation for the week ending 6th November 1920.

Brief abstract of the special reports regarding the food situation for the week ending 6th November 1920.

Bangalore City.—During the week under report 147 carts of ragi and 19 carts of paddy came into the bazaar as against 159 carts of ragi and 30 carts of paddy in the previous week.

The price of ragi ranged from Rs. 80 to Rs. 84 per cart during the week against Rs. 79 to Rs. 88 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The three Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—The market is fairly supplied. Rice, second class, is being sold at $4\frac{1}{4}$ seers a rupee and ragi $9\frac{1}{2}$ seers a rupee.

Bangalore District.—Except at Dodballapur, there was rain throughout the district.

The recent rains were beneficial to both the early and later crops. More rain is wanted. The standing crops are reported to be in good condition.

Markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue to be high.

Mysore District.—The situation is good.

Tumkur District.—Standing crops are in good condition. Prices of ragi and paddy range between Rs. 83 and Rs. 85 a cart-load. Supply is adequate. All the Government Grain Depots have been closed.

Kolar District.—There was no rainfall in the district during this week; yet the condition of the standing crops is reported to be promising.

Markets are fairly well supplied. The demand for Burma rice is very slack, local rice being available from 4 to $4\frac{1}{2}$ seers a rupee. The situation remains unchanged.

Hassan District.—There was a fairly good fall of rain generally all over the district.

The markets were fairly well supplied with food grains. Standing crops are in a good condition. More rain is wanted in Belur and Hassan Taluks.

Prices of food grains continue to be high.

The prospects of the season are generally good for the present. More rain is needed for the standing crops.

Shimoga District.—There were slight showers in some of the taluks of the district and the wet crops are reported to have suffered in some places particularly in Shikarpur Valuk. Rain is wanted everywhere in the district especially for the later crops.

There has been no change in the food situation in the district.

Kadur District.—Food-stuffs were available in all the markets in sufficient quantities In the Taluks of Koppa and Mudgere, rice was sold at 5½ seers a rupee as against 5½ and 6 seers a rupee respectively in the previous week. In Chikmagalur Taluk the price of ragi rose a little and it was sold at 8 to 9½ seers a rupee as against 9 to 10 seers in the previous week.

Rain is wanted in parts of Kadur and Tarikere Taluks and in Narasimharajpura Sub-Taluk also.

Chitaldrug District.—Except in the Taluks of Molakalmuru and Jagalur where the fall was only very light, there was no rain in the district. The prices of local rice, ragi and jola have gone up by one to two rupees a palla, possibly owing to the removal of restrictions within the five mile belt.

General (By Food Controller).—During the week there was very little rainfall except in the Bangalore and Hassan Districts. The standing crops are reported to be generally in good condition, but wet crops in certain parts of the Shimoga District and wet and dry crops in parts of the Hassan District seem to have suffered for want of rain. More rain is urgently required in all the districts.

Markets are reported to be generally well supplied. The prices of ragi and rice which had slightly fallen in parts of the Kadur District last week have again gone up. In the Bangalore City and Tumkur the price of ragi has been steady. In the Chitaldrug District there has been a slight rise in the prices of local rice, ragi and jola which is attributed to the removal of restrictions in the frontier belt. Rice from Tanjore side is reported to be coming into Bangalore City market in large quantities.

The Provincial Grain Depot continues to issue Burma rice to Co-operative Societies, merchants and private individuals for domestic consumption. Of the four Test Depots maintained through the Municipality the one at Arlepet was closed as the Lakshmi Co-operative Society has now taken up the business of selling the rice to the public in this locality. The other three Test Depots are selling Burma rice to the public in retail at 4½ seers a rupee.

Food Situation for the week ending 20th November 1920.

Brief abstract of the special reports regarding the food situation for the week ending 20th November 1920.

Bangalore City.—During the week under report 107 carts of ragi and 21 carts of paddy came into the bazaar as against 213 carts of ragi and 27 carts of paddy in the previous week.

The price of ragi ranged from Rs. 80 to Rs. 88 per cart during the week against Rs. 80 to Rs. 85 per cart in the previous week.

There was sufficient stock of rice and ragi in the bazaar for consumers.

The three Municipal Test Depots and the Importers sold Rangoon rice to the poor and to the public respectively.

Mysore City.—Report not received.

Bangalore District.—There was rainfall throughout the district excepting Channapatna and Anekal Taluks. The standing crops have been benefited by the timely rainfall. But paddy is reported to be withering for want of sufficient rain in the Bangalore, Dodballapur, Magadi and Anekal Taluks.

The markets were fairly well supplied, but the prices of ragi, rice and Burma rice were still high.

Mysore District.—Everything was satisfactory.

Tumkur District.—There was no change in the food situation, nor was there any fluctuation in the price of rice.

Kolar District.—There was rainfall throughout the district, except in the Bagepalli Taluk. The standing crops are promising in all taluks except Malur.

The markets were fairly well supplied and there was a tendency for rise in the price of local rice which was sold from $3\frac{3}{4}$ to $4\frac{1}{4}$ seers a rupee.

Hassan District.—There was a slight fall of rain in certain parts of the district. The markets were fairly well supplied with food grains. Standing crops were in good condition.

Prices of food grains continued to be high.

The prospects of the season were generally good.

Shimoga District.—There was no change in the food situation, but for want of rain, standing crops are reported to have suffered in certain parts of the district.

Kadur District.—Food stuffs were available in all the markets in sufficient quantities but the prices continued to be the same.

No change was observed in the food situation.

Chitaldrug District.—Excepting the Holalkere Taluk there was no rainfall in the district.

The dry crops in some parts of the district are reported to have suffered for want of rain. The prices of food grains continued to be the same as in the previous week. More rain is urgently wanted.

General (By Food Controller).—There has been some slight rainfall in certain parts of the State and this has been quite welcome. Dry crops in many parts of the State where there was not sufficient rain to mature the crops have suffered and this, it is excepted, will affect the yield to some extent. In the Shimoga and Bangalore Districts harvesting is reported to have commenced.

The markets throughout the State are reported to have been adequately supplied, but the prices have shewn no tendency to go down. It is expected that by the import of new crop rice from the Delta Districts of the Madras Presidency where the current prices seem to be favourable, the prices of local rice within the State also may go down. The price of ragi continues almost steady in important centres.

The demand for Burma rice in the Bangalore City has increased but to a very slight extent.

The Provincial Grain Depot is issuing Burma rice to Co-operative Societies, merchants and individuals for domestic consumption as heretofore and the three Municipal Test Depots are selling Burma rice to the public in retail.

Revision of the Regulation of the Mysore Lower Secondary Examination.

Read—

Letter No. Glc. 4934, dated 12th February 1919, from the Inspector-General of Education, requesting orders of Government, regarding the Revision of the Regulation of the Mysore Lower Secondary Examination proposed by the Local Examinations Board.

2. Correspondence ending with letter No. C. 4934, dated 2nd July 1919, from the same officer on the subject.

3. Correspondence ending with letter No. 68, dated 14th February 1920, from the Secretary, Board of Education, forwarding the resolutions of the Board on the revised Draft Regulations for the Mysore Lower Secondary Examinations.

ORDER NO. 4713-15—EDN. 80-18, DATED 22ND NOVEMBER 1920.

The main change proposed in the revised Regulations of the Mysore Lower Secondary Examination submitted by the Inspector-General of Education is the abolition of the Kannada Lower Secondary Examination as such and the provision of bilingual education in English and the Vernacular, Rule X requiring each candidate to take 2 languages, one of which shall be English the other being a vernacular.

In their Memorandum on education, Government invited the attention of the public to the proposed revision of the rules and called for definite recommendations on the same. The generality of opinions received in response is in favour of the change while some are not in favour of doing away entirely with the Lower Secondary Examination in Kannada.

The Board of Education are also in favour of the revised Regulation and have proposed the following modifications :—

(i) that Rule XI should be amended so as to permit candidates to answer questions in Elementary Mathematics, either in English or in Vernacular;

(ii) in Rule XVIII the words "until further orders" be substituted for "until 1924";

(iii) that the following sentence be added at the end of the sentence in note to Rule II, para (*b*) (ii) "This restriction does not apply to the students of the High Schools who are admitted to the IV Form under Rule XXII".

Government are pleased to approve of the revised Regulations subject to the modifications in (i) and (iii) above suggested by the Board of Education and with the further modification that in lieu of the proposed Rule XVIII, the following will be substituted. 'The Vernacular Lower Secondary Examinations will continue to be held as heretofore under the rules published in Notification No. 121, dated 13th June 1916, until further orders and those who have passed the Mysore Lower Secondary Examination in the Vernacular will be permitted to appear for the Mysore Lower Secondary Examination in English only, on payment of the prescribed fee, provided they forward their pass certificates with their applications for admission or quote in the applications their register numbers and the year of their passing the Vernacular Examination'. The rules as thus revised will be published in the Gazette and come into effect from the academic year 1923.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 27th November 1920.

Brief abstract of the special reports regarding the food situation for the week ending 27th November 1920.

Bangalore City.—During the week under report 113 carts of ragi and 20 carts of paddy came into the bazaar as against 107 carts of ragi and 21 carts of paddy in the previous week.

The price of ragi ranged from Rs. 82 to Rs. 89-8-0 per cart during the week against Rs. 80 to Rs. 88 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers to buy.

The three Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—Market is fairly supplied.

Rice second class is being sold at 4¼ seers a rupee and ragi at 9 seers a rupee.

Bangalore District.—The rainfall was general throughout the district. Many of the tanks have not received sufficient supply of water for the paddy crops, which is reported to be withering for want of rain in Magadi and Anekal Taluks. The standing crops are reported to be in good condition.

The markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue to be high.

Mysore District.—No change.

Tumkur District.—There was light rain in the taluks of Maddagiri, Sira, Tiptur and Kunigal and in the two sub-taluks. Supply of food stuffs is adequate. Price of ragi continues to be high being Rs. 84 a cart-load, while that of paddy has gone down to Rs. 75 a cart-load. Large quantities of Alur rice have been imported by local merchants and it is being sold at 4½ to 5 seers a rupee. Local rice is sold at 3¾ to 4 seers a rupee. There being no demand for Burma rice, all the Government Depots remain closed.

Kolar District.—Report not received.

Hassan District.—There was a light fall of rain in many parts of the district during the week.

Markets are fairly well supplied with food grains. Standing crops are in a good condition.

The prospects of the season are generally good for the present.

Shimoga District.—There has been no rain in the district during the week except at Channagiri which had 25 cents. Markets are fairly supplied.

Standing crops are reported to be in a fair condition. Paddy crop is reported to have withered in parts of Shikarpur Taluk.

Prospects of the season are fair.

No change in the food situation.

Kadur District.—Food stuffs are available in all the markets in sufficient quantities to meet the local demand. There appears to be no likelihood of the high prices going down.

Makki paddy, in the Narasimharajapura Sub-Taluk, requires rain.

Chitaldrug District.—There was no rain in the district during the week except at Challakere where the fall gauged only 20 cents.

Dry crops in the taluks of Hiriyur, Challakere and Molakalmuru have greatly suffered for want of rain. The white jola crop which has come up well so far requires only an inch of rain without which it would also suffer badly. The price of local rice has gone up by Rs. 2 a palla owing to large export of the same to the British frontier on the Challakere and Molakalmuru side due to the removal of restrictions on the transport of controlled grains within five mile belt. The prices of other grains which should have fallen continue as before also for the same reason.

General (By Food Controller).—The Bangalore District had some little rain in all its taluks. There has been practically no rain in the other parts of the State. It is however very badly required for the standing crops. The paddy crops in parts of the Bangalore and Shimoga Districts is reported to be withering for want of rain.

The supply of food grains in the markets throughout the State is reported to be adequate but the prices continue to rule high. In the Bangalore City the price of ragi has gone up by a couple of rupees per cart-load.

It is understood that the price of rice (new crop) in the Delta Districts of the Madras Presidency is Rs. 17 per palla. Some of the Bangalore merchants have, it is learnt already gone to the Krishna District to purchase and import large quantities of rice. The import of this rice will, it is expected, bring down the price of local rice also.

The Provincial Grain Depot is continuing to issue Burma rice to Co-operative Societies, merchants and individuals for domestic consumption. The retail sales of Burma rice in the three Municipal Test Depots continue.

Chief Secretary to Government.

Bill to amend the Mysore State Life Insurance Regulation, 1917,

Whereas it is expedient to amend the Mysore State Life Insurance Regulation, 1917; His Highness the Maharaja is pleased to enact as follows :—

In Section 3 of the Regulation for the figure 'Rs. 1,000' the figure 'Rs. 2,000' shall be substituted. Amendment of Section 3.

Statement of Objects and Reasons.

Under Regulation IV of 1917, the President of the State Life Insurance Committee is authorised to disburse to such person as he finds entitled after reasonable enquiry the bonus due to the estate of a deceased policy-holder without the production of a succession certificate, probate orletters of administration, when the amount payable does not exceed Rs. 1,000, as the insured in such cases are generally poor and the expense and delay of obtaining a certificate of heirship from a Court of Law would involve great hardship to their dependents. The Insurance Committee have recommended that this concession may be extended to the payment of bonuses up to Rs. 2,000. The proposal is supported by the analogy of the law in force in British India in regard to the payment of sums standing at the credit of deceased subscribers to the Government or Railway Provident Fund.

The present Bill is intended to give effect to the recommendation of the Insurance Committee.

P. MAHADEVAYYA,

CENSUS 1921.

The following extract from the Mysore Census Code containing instructions issued to Enumerators under Section 15 of the Census Regulation II of 1920, is hereby published for general information.

CHAPTER VIII.—INSTRUCTIONS TO ENUMERATORS.

NOTE.—*For the sake of brevity and emphasis the instructions are addressed direct to the Enumerators in the second person.*

SECTION 1.—INTRODUCTORY.

Introduction.

1. Although you are but one of a very large number of officers appointed for taking the Census of the population of Mysore, you should understand that you are one of the most important and trusted of them. The greater the care and trouble you bestow upon the correct writing up of the Enumeration Books, entrusted to you, the more successful will the Census prove to be. Therefore do your best.

Object of the Census.

2. You should yourself understand, and you should explain to all concerned, that the object of the Census is to count the number of living persons, and to ascertain mainly how many of them belong to each sex, to each religion, to each caste and sub-caste, what occupations they pursue, and what their condition is in regard to marriage, education and certain specified infirmities. The object has no reference whatever, to the superiority or the inferiority of one religion or caste in relation to another, or of one person or family in relation to another, and so forth. Therefore, let there be no hesitation in people stating and in your recording, truly and correctly, the particulars required in regard to all living persons of whatever age, sex or rank.

Brief resume of the Enumeration Procedure.

3. "Enumeration" is the process of recording in printed and ruled forms called General Schedules the above particulars in respect of every person residing in the area assigned to you (block). A detailed description of your block is given in the "Block-List" forming part of the Enumeration Book supplied to you. The principal rules regarding the manner in which you will have to fill up the several columns of the Schedule, are printed on the cover of the Enumeration Book. They are described at length *infra*. You must study these instructions carefully. If in doubt on any point you must consult your Supervisor.

First Round. Practice Enumeration.

4. You will have to visit the houses in your block three times. During the first round your Supervisor will initiate you into your work by himself enumerating the inhabitants of the first two or three houses in your block. You must watch carefully how he does this, and then follow on similar lines in regard to the whole, or such portion, of the remaining houses in your block as he may direct. After you have finished the work, you must submit it for the inspection of your Supervisor who will revise it, and point out any mistakes which may have been committed. This procedure constitutes what is known as, "trial," "practice" or "draft" enumeration. You need not make any entries on blank pieces of paper as was recommended to be done last time. You should make all the entries in the draft Enumeration Book itself.

Second Round. Preliminary Enumeration.

5. During the second round, you must fair-copy into another Enumeration Book which will be supplied to you for the purpose, the draft or trial entries, as revised and corrected by your Supervisor. If at the first round, you have enumerated only a portion of your block, you must at this round *complete* the whole of your block, and submit the book for the inspection of your Supervisor. On points of further detail your Supervisor will give you necessary instructions. This constitutes what is known as "Preliminary Enumeration."

6. During the third and final round on the night of 18th March 1921, you must visit all the houses in your block, as well as any Musafir-khanas, bandy stands, and other places of encampment, and bring the preliminary record up-to-date by striking out the names of all persons who may have died or left the block, since the date of preliminary enumeration, and entering the particulars of all infants newly born, and new arrivals since the same date. This constitutes what is known as "Final Enumeration." Third Round. Final Enumeration.

7. The procedure to be adopted at each of these stages is described in detail *infra* in Sections 2 and 3.

SECTION 2.—PROCEDURE DURING THE FIRST AND SECOND ROUNDS. "PRACTICE OR DRAFT" AND "PRELIMINARY" ENUMERATION.

8. You should visit every house to which a separate number has been affixed in the order in which the houses are entered in your block-list and fill up the several columns of the Schedule in accordance with the rules given below. Every house to be visited.

The rules are the same both for "practice or draft" as well as "preliminary" enumeration.

9. If in the course of your rounds, you find any house without a number, you should report the case to your supervisor and meanwhile proceed to fill up the particulars for that house adopting a fractional number intermediate between the number last written and the next in the series, thus 26—1 between No. 26 and 27 and so on. Treatment of houses without number.

10. You must use *good black ink only* and write neatly, and legibly in Kannada generally. *Red ink should be used only on the final Census night.* Ink to be used.

11. You must use a separate enumeration book for each block and leave a line or space blank between the entries for one *occupied* house and another. In the case of an unoccupied house, write empty, against it in column 2, and leave the rest of the line blank. Be careful to write the particulars of only *one* person between two horizontal lines. General instructions about writing up Enumeration Book.

12. You must next fill up the several columns of the schedule in accordance with the following rules:— Rules for filling up the several columns of the Schedule.

N.B.—Proceed to make the entries vertically instead of horizontally, *i.e.*, fill up the several columns consecutively one after the other, in respect of every person mentioned in column 3 instead of writing up the particulars of one person completely before proceeding with the next and so on. Thus, in respect of each person in a family, fill up first column 3, then column 4, then column 5 and so on.

Rule 1, *Column* 1.—(House numbers) Here enter the number of the house. If it is unoccupied write "empty" after the number in column 2, and leave the rest of the line blank. Deal similarly with a house to which a house-hold schedule has been issued writing "Household Schedule" instead of "empty" in columns 2 and 3 against the house number. If you find a "dwelling house" (*Vide* Article 2 of Chapter III for definition) without a number proceed as directed in Article 9 *supra*. Be careful to enter the *next* house number only after you have completely enumerated the inhabitants of the *preceding* house. Write the word continued under the house number when the entries are continued from the previous page.

Rule 2, *Column* 2.—(Serial number of person enumerated.) *You should not fill up this column until after the final enumeration is over,* when the serial number for all persons enumerated will be filled up, generally by your Supervisior himself.

Rule 3, *Column* 3.—(Name.) Ask who is the head of the family enter his or her name first in this column. Then enquire the names of the other members of the family, and the commensal resident, servants, if any, and write down their names next prefixing his or her

relationship to the head, *e.g.*, son X, daughter Y, servant Z and so on. If there be any objection made to giving the name of a female write the word "female" for the name, and fill up the rest of the columns for her as usual. If an infant has not yet been named, enter the word 'infant.' If any female is unwilling to give her own or her husband's name, you must ask some one else for the information.

Enter the names of all commensal persons permanently residing in the house in this column, *including those who may be casually absent at the time of your visit, provided they are likely to return before the night of the final Census.* Conversely casual visitors who will return to *their* own houses before final Census should be omitted.

Rule 4, *Column* 4. -(Religion). Ask the head of the family to which of the following religions (*viz.*, Hindu, Musalman, Jain, Sikh, Christian Parsi, Jew, Buddhist) each of the persons shewn in column 3 belongs, and enter it in this column. In the case of Christians the sect also, should be entered alongside. In the case of aboriginal tribes and others who do not belong to any of the foregoing religions, enter the name of the tribe, etc., which they return, *e.g.*, Soliga, Korma, etc. A list of the principal religions and sects commonly returned is given in the Appendices to this Part.

If two or more persons belong to the same religion, do not write "ditto" in this column but repeat the name of the religion against each such person.

Rule 5, *Column* 5.—(Sex). Here enter in the appropriate sub-column (a) or (b) the sex of each person as male (M) or female (F) as the case may be. It is not necessary to write the full word. It is sufficient if the initial letter M or F as the case may be is entered in sub-column (a) or (b). Eunuchs and Hermaphrodites are to be entered as males.

Rule 6, *Column* 6.—(Civil Condition.) Enquire if each of the persons in Column 3 is married or not, or is a widower or widow, and enter the answer as it would be given as "yes" or "no" or "widower" or "widow" (using only the initial letter "W" in the last mentioned case for the sake of brevity), in sub-column (a) or (b) or (c). Thus the entry for a married person would be "yes" in sub-column (a), for an unmarried person "no" in sub-column (b), and for a widower or widow "w." in sub-column (c).

Enter prostitutes as unmarried (No), but if any of them return themselves as married enter (Yes) and ask no further questions. Persons who are recognised by custom as married are to be enterd as such even though they may not have gone through the full ceremony. Divorced persons should be treated as widowed.

Rule 7, *Column* 7.—(Age.) Enter the age on last birthday, *i.e.*, the number of years each person has completed. For infants less than one year old, enter the word "infant." If a person cannot state his or her age exactly, you should ask the relations, or *refer to some well known event of local importance* or if the person be present make a guess at the age from appearance. Do not leave the column blank.

Rule 8, *Column* 8. (a) *and* (a).—(Caste and sub-caste.) *Both* the sub-columns (a) and (b) should be filled up for Hindus and Jains *only*. For the others only the sub-column (a) should be filled up and sub-column (b) left blank. A list of the principal castes, tribes and races, etc., is given in Appendix 3.

Examples of those which occur frequently are given below:—

(*a*) For "Hindu" you should enter in sub-column (a) the caste as "Brahman," "Kshatriya," "Vaisya," "Nagartha," "Lingayita," "Vokkaliga," "Panchala," "Kuraba," "Beda," "Banajiga," "Vadda," "Holeya," "Madiga" and so on. For "Jains" enter in the sub-column (a) the caste or sect as "Digambara," "Svetambara," "Sada," etc. For "Musalmans" who do not observe caste distinction you should enter the *tribe*, etc., as "Pathan," "Moghul" "Labbe," etc. For Christians who also do not observe caste distinction enter the *race* or *nationality* as English, Scotch, Irish, etc., in the case of *foreigners*; and any racial or other distinction which may be returned among *Indian Christians*.

(*b*) In the sub-column (b) enter for Hindus and Jains only, the sub-caste returned in each case.

Rule 9, *Columns* 9, 10 *and* 11 (Occupations).

(*a*) *Scope and Correlation of the Entries.*—Columns 9 and 10 relate to "actual workers" *i.e.*, the persons male and female who do work and *earn an independent livelihood*, or who though living with others and not doing manual work derive *independent income* from private property such as pension, house rent, etc. The columns should therefore be left blank in the case of "*dependents*," *or those who have no independent income* but are dependent upon some "actual workers" for their subsistence or means of livelihood. Column 11 relates to "dependents" and should therefore be left blank in the case of "actual workers" or persons of independent means already disposed of in columns 9 and 10. If a person be *temporarily* out of employment enter the last or ordinary occupation.

(*b*) *Preliminary point to be ascertained.*—You should therefore first of all determine by suitable enquiry whether the person whose particulars you are entering has or has not an "*independent income.*" If the answer is in the affirmative, he or she should be treated as an "actual worker" and the *principal source of that* income entered in column 9, the subsidiary source, if any, being entered in column 10. If the answer is in the negative, he or she should be treated as a "dependent," and the principal source of income *of the person on whom he or she depends* for his or her subsistence, should be entered in column 11. Thus, women and children who actually do work, and earn independent wages such as the wives, and children of the labouring classes, those who sell firewood, buttermilk, cowdung cakes, grass, etc., or those who engage themselves as domestic or Government servants for monthly wages or those who are in receipt of independent incomes from properties which they possess in their own right should be treated as "actual workers" although in the last named case, they may not be doing any manual work, and their occupations entered in columns 9 and 10. But if a person is not in receipt of *independent income*, he or she should be treated as a dependent, although he or she may be engaged in manual labour. Examples of this are the cases of the women and children of agriculturists who actually work at home, (cooking, etc.,) or in the field, taking an active part in the pursuits of the head of the family, but who should nevertheless be treated as "dependents" because they are not in receipt of any *independent income*. The case of a person who not only does not work, but also is *not* in receipt of an independent income is quite clear and calls for no remarks.

(*c*) *Distinction between principal and subsidiary occupations.*—If a person who has more than one occupation or means of livelihood expresses a doubt as to what he should consider as his principal occupation, he should be asked which of his occupations he relies upon most for his livelihood or considers to be the most indispensable and that should be regarded as his principal occupation, and entered in column 9. The rest should be regarded as subsidiary occupations; and of these again that on which he relies the *most*, should be entered in column 10. It is not necessary to enter more than one subsidiary occupation.

(*d*) How to describe the occupations in the Schedule :—

(1) In filling up columns 9—11, you should describe the occupations in detail.

(2) Do not use vague terms such as service, Government Service, Shop-keeping trade, and so forth; but state the exact service, the goods sold in the shop, the class of articles the person is trading in, the class of writing or labour and so forth. A seller who makes the articles he sells should be entered as maker and seller of them.

(3) *Examples of detail of private service.*—In the case of private employees, domestic servants and the like, the kind of service rendered should be stated in detail, *e.g.*, Lawyer's Clerk, Rice Merchant's cook, Doctors' Syce.

(4) *Service of Government, etc.*—When a person is in the service of a public body, enter the name of that body before the service; thus Railway Guard, Municipal Sweeper, etc. In the case of persons in Mysore Government or other Public Services the exact name of the appointment and the office in which employed should be given.

(5) *Pensions, etc.*—Pensioners must be shown as Civil or Military as the case may be. Persons who live on the rent of lands or buildings in towns and cities should be described as such.

(6) *Agriculture.*—In the case of agriculture, persons should be entered as

(*a*) Non-cultivating land-holders (*b*) Non-cultivating tenants	Corresponding to rent receivers.
(*c*) Cultivating land-holders (*d*) Cultivating tenants	Corresponding to rent payers.

(*e*) Field labourers:—those regularly employed, being distinguished from those who work by the day or by the job. Gardeners and growers of special products such as coffee, cardamoms, pepper, betel, etc., should be shown separately as such.

(7) *Labourers in Mines.*—In the case of labourers, who are not agricultural labourers, they should be entered as earthworkers, labourers in mines, stating the substance mined such as stone, mica, gold, etc., and operatives in mills, workshops, of factories, specifying the kind of mill or factory, such as cotton mills, rice mills, lac factory or presses, etc.

(8) *Members of joint family.*—In the case of one or more members of a joint family who have got *independent incomes*, they should all be regarded as actual workers and their principal and subsidiary occupations should be entered in columns 9 and 10. They are not to be shown as dependents.

(9) *Domestic and other servants.* Servants are not to be shown as dependent on the occupation of their master, but treated as actual workers, the actual service performed being entered in columns 9 and 10.

Rule 10, *Column* 12.—(Birth Place). Enter the district in which each person was born; and if the person was not born in the Mysore State, add the name of the Province or State, to the district of birth. Thus "Tumkur District" "Bellary District" "Madras Presidency," "Amreli District, Baroda State" as the case may be. If the person was born out of India, enter the Country as China, Afghanistan, Ceylon, etc. The names of villages, taluks, etc., are not to be given. A list of the chief birth places returned at the last Census is given in Appendix 4.

Rule 11, *Column* 13.—(Mother Tongue). Enter the language which each person mentions as his mother language, *i.e.*, that which he ordinarily uses in conversation with his mother or other near relations. In the case of infants and deaf-mutes, the language of the mother should be entered. A list of the principal languages returned at the last Census is given in Appendix 5.

Rule 12, *Column* 14.—(Literacy). For all persons of whatever age or sex *who can both read and write any language*, enter in Column 14 "literate." A person should not be entered as "literate" unless he can write a letter to a friend and read the answer to it. If illiterate, that is, if the person does not known *both* to read and write any language at all, or knows only to sign his (or her) name, enter a zero (0), in, Column 14 (b).

Rule 13, *Column* 15.—(Languages in which literate). In the case of persons, literate in several languages, first enter the language best known and then the rest.

Rule 14, *Column* 16.—(Infirmities). If any person be blind of both eyes, or deaf and dumb or insane or suffering from corrosive leprosy, enter the name of the infirmity in the column. Do not enter those who are blind of one eye only, or who are suffering from white leprosy only.

Rule 15. Read the above instructions carefully and in any case of doubt or difficulty seek your Supervisor's instructions and be guided by them.

13. Examples illustrating the salient points in the foregoing instructions are given in the "Specimen Schedules" printed on the "Cover" in the "Specimen Schedules."

SECTION 3.—PROCEDURE DURING THE THIRD OR FINAL ROUND. "FINAL ENUMERATION."

Every house to be visited on final census night.

14. On the evening of the 18th March 1921, at the time of lighting lamps, you should take your Enumeration Book as already filled in, and again visit every house in the order given in the block list. Before you start on your round, you must see that you are yourself enumerated in the house where you are stopping. This does not mean that you should wait for such enumeration in case the house belonging to another Enumerator's jurisdiction, but that you should make the necessary arrangements with the enumerator concerned.

How the preliminary record should be brought up to-date.

15. (*a*) You must summon the chief member of each family and read over to him one by one the entries made for his family, in the Schedule, asking him as you read each time, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come, or any child has been born and whether any person has been married or widowed since last enumeration. You must strike out the entries for persons who are not present, and fill up the form for any person now in the house, who was not there when your previous visit was made, such as guests, infants newly born and others. You are to consider as present all persons ordinarily living in and taking their meals from the house even though at the time of your visit any of them may be absent from the house casually for a few hours having gone out to watch in the fields or to sleep in the chavadi or at a shop, etc., or to dine at a friend's house provided the absence in every such case is casual, and that the absentee is likely to return to the house within a few hours. But if any of them have left the house on a journey to another place by road, or by train they should be enumerated on the road, or train, or at their destination in the manner described *infra* for travellers. In the same way to avoid double enumeration you are not to reckon in any building any person merely sleeping or otherwise present there at the time of your visit, but ordinarily residing or taking his meals in a house where he will be enumerated as just directed.

(*b*) You must yourself visit each house in the block in the order of the numbering, and must not get the inhabitants to come to you, (except in the case, referred to below); nor must you send the village watchman (Toti, Talari, or Kulavadi) to enquire and report what changes have taken place since the preliminary enumeration.

Every name to be read.

16. You must not content yourself with asking generally whether there has been any change. You must (as prescribed above) ask as you read each name and description entered in column 3 at the preliminary record, whether the person is actually present or not. You must then ask the specific question whether any fresh persons have come or any child has been born. This latter point must be carefully attended to.

Where fresh entries should be made.

17. The fresh entries mentioned in the last rule must be made on the blank pages at the end of the book. In each case you must enter the number of the house to which the fresh entries relate, writing under it the word "continued" and at the same time make a note in the blank space below the original entries of the house concerned to the

effect that the entries have been continued on such and such a page. Blank paper should not be pasted to the end of the schedule for fresh entries.

No alteration to be made except in civil condition.

18. On this night you must make no alteration in any entry, except as regards civil condition, against the name of any person unless you have to strike out the entries altogether on the ground that he or she is no longer present. When you strike out a person you must draw the line completely through all the entries following that person's name, and not merely through column 2.

Red ink only to be used.

19. You must use *red ink only* for the entries and erasures made on the round of the 18th March.

Empty houses also to be visited.

20. In the course of this round, you must also visit every house marked "Empty" in your block list or the schedule at the preliminary enumeration, to see whether any person is living there, and to enter him like others in the manner above prescribed.

Places where travellers are likely to be found also to be visited.

21. After visiting as above all the dwelling houses, you must go tot he Chattrams, Musafirkhanas, Bandystands and other places of encampment where travellers rest for the night, and enter all particulars in the Schedules for the way farers, boatmen, pilgrims and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchman whether any members of a wandering tribe have come to camp in your Census area. If so, you must go and enumerate them in the manner prescribed above.

Hill tribes, etc., how to be dealt with.

22. In the case of hill tribes living in the jungles and herdsmen with Amrut Mahal and other cattle who may be out in the Kavals and the Idigars and Toddy drawers who may be living out in the Toddy groves, arrangements should be made in consultation with the authorities concerned for procuring their attendance in the nearest village on the night of the Census. But they should not be enumerated as belonging to that village unless the field or kaval in which they habitually live, *also* belongs to the *same* village. For example, the kavalgars of Amrut Mahal cattle should be shown under the "Kaval village" and not the nearest village where their attendance may have been *temporarily* procured for the convenience of the Enumerator.

House-hold Schedules to be collected.

23. If any householder in your block has been given a separate schedule called Household Schedule, you should collect it while going your round on the night of the 18th March, or on the morning of the 19th March, and after seeing that the columns are properly written up according to the rules, you should stitch it on to you Enumeration Book at the end next to the cover.

Adventitious, population to be enumerated on loose-leaf schedules.

24. You will be supplied with one or two loose-leaf schedules for the enumeration of the adventitious population in your block such as travellers, etc., and with enumeration tickets to be given to them in order that they may not be counted twice. These loose schedules if filled in, should also be stitched on to the Enumeration Book like House-hold Schedules.

SECTION 4.—POST CENSUS DUTIES.

Duties on 19th March 1921.

25. On the morning of the 19th March 1921, you must meet your Supervisor at a time and place to be previously appointed. You must take with you the Enumeration Book, and house-hold and loose schedules relating to your block, and prepare under his directions, the short abstract printed on the cover of the Enumeration Book, shewing the results of the Census.

SECTION 5.—MISCELLANEOUS.

26. According to the Census Regulation every person is legally bound to furnish you to the best of his knowledge and belief with such information as is necessary for filling up the schedule, but you are forbidden to ask for any information not required for the purposes of Census, as for instance, the name of any female member to give whose name, objection is made, or to require a female to give her husband's name against her wishes and the custom of the country. If any person declines to furnish information on any point on which he is legally bound to furnish information you must report the case to your Supervisor who will obtain the orders of his superior officers thereon.

Every person is legally bound to furnish information.

27. Any Enumerator receiving bribes on any account connected with the Census renders himself liable to punishment under the Census Regulation or the Penal Code.

Enumerators Ra. to receive bribes.

28. Except to the extent provided for in the special rules made for the regulation of Special Censuses (like the Census of agricultural stock) the above rules of general procedure will also apply to all such technical Censuses.

Procedure of special Census.

(2) If the seller declines to accept one of the parts, the public analyst receiving a sample for analysis shall divide it into two parts and shall seal or fasten up one of those parts and shall cause it, either upon receipt of the sample or when he delivers his certificate, to be delivered to the purchaser or to the local executive officer who shall retain it for production in case proceedings are taken.

STATEMENT OF OBJECTS AND REASONS.

The question of legislating for the prevention of adulteration of milk was mooted in the Representative Assembly in October 1917.

The evil arising from adulteration of milk and also of other food stuffs like ghee, oil, etc., is growing especially in large towns and cities and in view of the strong popular opinion in favour of legislation to check adulteration, Government consider that the time has come to take action for the prevention of adulteration of all food stuffs. This Bill has accordingly been drafted on the lines of the Madras Prevention of Adulteration Act, 1918. Power is reserved to apply the provisions of the Bill in large Municipalities and other areas where adequate facilities exist for the appointment of public analysts and constant inspection of places where food stuffs are manufactured or sold.

(2) The President may refuse to give such permission, if he be of opinion that the establishment of such factory, workshop or work-place in the proposed position is objectionable by reason of the density of the population in the neighbourhood thereof, or will be a nuisance to the inhabitants of the neighbourhood or in any other manner, contravenes the terms of any bye-laws framed in this behalf."

12. After Section 138 the following new section shall be inserted :— **Addition of a new Section 138 A. Use of siren or whistle for summoning or dismissing workmen.**

13. After Section 165 of the Regulation the following new section shall be added as Section 165-A :— **Addition of a new Section 165 A. Power to compound offences.**

"165 A. (1) The Government may empower any Municipal Council, or its President, Vice-President or Chief Officer to accept from any person, against whom, a reasonable suspicion exists that he has committed an offence against this Regulation or any rule or bye-law thereunder, a sum of money by way of composition for such offence.

Provided that no offence which falls under any provisions of the Indian Penal Code shall be compounded otherwise than in accordance with the provisions of Section 345 of the Code of Criminal Procedure.

(2) On payment of such sum of money such person, if in custody shall be discharged and no further proceedings shall be taken against him in regard to the offence or alleged offence so compounded.

(3) Sums paid by way of composition under this section shall be credited to the Municipal Fund.

(4) The power under sub-section (1) to compound offences may be given whether generally under this Regulation and the rules and bye-laws thereunder, or particularly in regard only to individual offences of a specified class and may at any time be withdrawn by the Government.

(5) Any sum of money accepted as composition under sub-section (1) shall not exceed the amount of fine fixed for the offence in the Regulation or in any rule or bye-law thereunder or rupees fifty, whichever is less.

(6) The Government may make rules to regulate the proceedings of persons empowered to compound offences under this section.

14. In Section 180-A of the Regulation, the words "and the Sringeri Municipal Council" shall be added after the words "City Municipal Council." **Amendment of Section 180-A.**

STATEMENT OF OBJECTS AND REASONS.

The present Regulation having been found from experience to be defective, a number of suggestions have been received for amending the Regulation. The Bill has accordingly been prepared. The notes on clauses attached to this explain the scope and object of these amendments.

NOTES ON CLAUSES.

Clause 1.—This is intended to disqualify persons who are already Municipal Councillors from standing for election to the Council without resigning their seats on the Council.

Clause 2.—This makes only a change in the nomenclature so as to be in conformity with the current designation of the District Sanitary officers.

Clause 3.—Under the provisions of Section 31 the number of persons not being Councillors who can be appointed on any Committee should not exceed one-third the number on such Committee. This proportion is proposed to be increased to one half so as to provide for a larger association in Municipal Administration (especially in connection with economic work) of earnest and enthusiastic workers outside the Municipal Council.

Clause 4.—*Sub-clauses* (1), (2) *and* (3).—These sub-clauses are intended to provide for greater control over hotel-keepers, bakers, etc., in the interests of public health by providing for the framing of bye-laws to regulate the grant of licenses for the establishment of hotels, etc. Provision is also made generally for the regulation of the grant of licenses by the framing of bye-laws.

Sub-clause (4) *of clause* 4 *and clauses* 7 *and* 8.—Provision is made in these sub-clauses for enabling Municipal Councils to make proper arrangements for housing the poor.

Sub-clauses (5), (7) *and* (8) *of clause* 4 *and clause* 10.—Provision is made to enable Municipal Councils to frame bye-laws for insisting on the construction of rat-proof houses and shops as a safe-guard against plague infection in affected areas.

Sub-clause (9) *of clause* 4.—This is intended to enable Municipal Councils to frame bye-laws for prohibiting double riding on bicycles and such other acts as are prejudicial to public safety.

Clause 5.—This clause is intended to regulate the rights of holders of alienated villages over taxes or other items of revenue accruing within the respective areas which may be constituted into Municipalities.

Clause 6.—This is intended to ensure the expenditure of the sum allotted for economic work in Municipal areas exclusively for that purpose.

Clause 9.—It is reported that there are many building sites in the cities of Bangalore and Mysore and in other Municipal towns which have been allowed by the owners to remain vacant for a number of years. Some of these seem to have been purchased more for speculation than for purposes of building. It is necessary to put down this evil of leaving vacant sites in an uncared for and insanitary condition in the midst of well laid out extensions. It is now proposed to provide for resumption of the vacant land, if no building is constructed within the prescribed or extended time, as the case may be, sufficient notice being given of the same to the owner or occupier.

Clause 11.—The new Section 137-A is intended to regulate the establishment of flour and oil mills and factories worked by electric or other mechanical power by the side of dwelling houses and crowded localities, especially in proximity to hosptials, etc., so as to put a stop to the considerable nuisance that factories are causing to the neighbourhood.

Clause 12.—Frequent complaints have been made by the residents of Bangalore that the sirens used by the mills disturb many households in the early morning. Provision is made in the new Section 138-A for controlling the use or employment of sirens.

Clause 13.—It is considered necessary to empower Municipal Councils to compound offences against the Municipal Regulation, and the rules and bye-laws framed thereunder, in view especially of the trivial nature of many of the offences which cause unnecessary trouble to the Municipality and undesirable annoyance to innocent and perhaps ignorant offenders by the judicial proceedings taken in such cases at present.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

5. *Stocks.*—The stocks of food grains available on the last day of the month in the Government and Municipal Depots in the State were 19,452·83 pallas of Burma whole rice, and 687·62 pallas of broken rice, details for which are as follows:—

It is hereby notified for public information that the undermentioned jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement), by the said Jodidar Venkatasubbiah and others will be sold by public auction at the place and on the date mentioned in the annexed statement. 4. When such deposit shall not be made, nor the remaining purchase money paid up, the land shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulters, or any other persons acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Deputy Commissioner.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Deputy Commissioner within thirty days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

Notification dated 15th November 1920.

It is hereby notified for public information that the undermentioned jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement), by the said Jodidar Subbabhatta and others will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A.M., on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that, when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the land shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulters, or any other persons acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Deputy Commissioner.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Deputy Commissioner, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Deputy Commissioner within thirty days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

CRIMINAL SIDE.

Corrigendum dated the 30th October 1920, to Rule of Practice No. 5, dated the 12th June 1878.

In supersession of the Rules of Practice Nos. 43, dated the 27th November 1885 57, dated 9th January 1892; Circular letters Nos. 29, dated 6th December 1881, 102, dated 20th May 1892, 139, dated 17th November 1898, 157, dated 18th July 1904, and the Chief Court Proceedings dated the 10th August 1895, the Chief Court directs that the following form be substituted for Register No. III, prescribed by the said Rule of Practice:—

REGISTER No. III (*Criminal*).

Register of Miscellaneous Cases received in the Court of

Number	Name and residence of petitioner, if any, or designation of officer by whom reported	Name and residence of defendant	Section and Chapter of the Criminal Procedure Code under which Proceedings are instituted	Result	Date of			Remarks
					Receipt of petition or report	Commencement of inquiry	Order	
1	2	3	4	5	6	7	8	9

NOTE—The following cases will be entered in this register:—

1. Proceedings against witnesses under Chapter VI C and Section 485, Criminal

Procedure Code.

2. Proceedings under Chapter VIII to prevent breach of the peace (Sections 106, 107, 108, 112, 119 and 123, Criminal Procedure Code).
3. Proceedings under Chapter VIII, security for good behaviour (Sections 109, 110, 112, 119 and 123, Criminal Procedure Code).
4. Proceedings against public nuisances under Chapter X, Criminal Procedure Code.
5. Possession under Chapter XII, Criminal Procedure Code.
6. Frivolous or vexatious accusations summarily dealt with under Section 250.
7. Non-attendance of jurors or assessors under Section 332, Criminal Procedure Code.
8. Maintenance under Chapter XXXVI, Criminal Procedure Code.
9. Forfeiture of bail or recognizance under Chapter XLII, Criminal Procedure Code.
10. Proceedings under Section 563 against convicted offenders released under Section 562, Criminal Procedure Code.
11. Proceedings on complaints under the Breach of Contract Act.
12. Proceedings under Sections 13 and 15 of the Lunacy Regulation.
13. Proceedings for disposal of property under Sections 518 and 523, Criminal Procedure Code.
14. Proceedings under Section 480 (contempt of court), 512 (against an accused who has absconded) and Section 552 of the Criminal Procedure Code.

The date of institution in miscellaneous proceedings is the date on which any proclamation is published, process issued or order made, or on which the accused is produced in Court or is called upon to show cause why an order should not be made against him.

As regards some of the cases classed as miscellaneous the terms "conviction" and "discharge" (columns 6 and 7) of the Quarterly Statement No. IV can only be arbitrarily defined, but as a general rule it may be said that a person should be regarded as "convicted" whenever an order adverse to him is passed as final or is made absolute. If proceedings terminate without such an adverse order the person who, but for this termination might have been the object of such adverse order, should be regarded as "discharged".

(i) An order for sale of attached property under Section 88 of the Code would be equivalent to conviction even though the attached property be subsequently restored under Section 89.

(ii) An order made absolute under Sections 136, 137 or 139 of the Code would be regarded as a conviction.

(iii) An order of attachment under Section 146 does not terminate the proceedings and the case must remain pending till a final order is passed.

(iv) In cases under Section 2 of the Workman's Breach of Contract Act, 1859, if an order to repay the money or a part of the money advanced or to perform or get performed the work contracted for is passed, the accused will be treated as convicted, otherwise as discharged. If the order is disobeyed and it is proposed to sentence the offender to imprisonment, a separate case will be registered in the register of original cases.

When a case which has once been decided is ordered in appeal or revision to be retried or further inquired into, the retrial or further inquiry will for all purposes, including duration, be regarded as a separate case whether it takes place in the court which originally tried the case or in some other Court. A note will, however, be made in the remarks column against the new line of entries giving the number under which the case was originally registered and the number and date of the order of the appellate or revisional court.

NOTE 2—The reports submitted by the Police in Forms B and C under Sections 169 and 173, Criminal Procedure Code, and inquests held by the Magistrates should not be entered in this register; if a summon or warrant issue and judicial investigation result on a report under Section 169, Criminal Procedure Code, the case should be entered in Register I.

(*iv*) In the case of voluntary retirement before the completion of five years' service or of dismissal for dishonesty, incompetence, misconduct or gross insubordination, an employee will only be entitled to get back his own subscription up to the date of retirement or dismissal together with interest thereon calculated as above.

18. No payment shall be made to or on account of any subscriber until any debt that he may owe to the school has been paid but no debt shall be contracted on the security of the provident contributions.

19. When the pecuniary circumstances of the subscriber warrant it, a temporary advance not ordinarily exceeding 3 months' pay may be allowed from the sum at the credit of the subscriber at the discretion of the controlling authority. The following may be recognised as legitimate occasions for advance:—

The instalments will be paid by compulsory deductions from salary and will be in addition to the usual subscription.

20. All lapses from the contribution except the amount paid by the Management shall be added on to the Fund, and the amount refundable to the Management in such cases shall be the amount contributed by them together with interest thereon at 4 per cent per annum.

This security may be in Government of India Pro-notes endorsed to the Dewan of Mysore, or in Mysore Government Savings Bank deposits made under para 9 of the Savings Bank Rules.

Papers not up to quality and sample will be rejected and will remain at the risk of the contractors. *All papers must be entirely free from mechanical wood.*

The earnest moneys for the tender or tenders of the successful competitor or competitors will be returned to those concerned only when the supply is made satisfactorily throughout the entire period for which the contract is to run.

11. The successful competitor shall guarantee to maintain at Bangalore at stock 50 per cent of the materials enumerated in the group or groups allotted to him in the list and shall comply with all indents made on him within three days of the order sent to him and follow the same procedure throughout up to 30th June 1921. Any further delay than 3 days will entail a penalty of Rs. 2 per day until the supply is made satisfactorily. Such penalty will strictly be enforced without any notice to the effect.

12. The rate tendered and accepted for each item shall include cost of delivery at the "Stores" attached to the Water-Supply Division at Bangalore and shall be binding on the supplier for the period from 1st January to 30th June 1921, irrespective of all fluctuations in the market during the period.

13. Materials supplied by the party but found not to be up to standard in quality or in any respect will be rejected and the supplier shall remove and replace the same with fresh articles then and there at his own cost.

14. Should the successful competitor fail to supply the required articles or replace the rejecteed ones in time, the Executive Engineer will make other arrangements to procure them at the risk of the party should there be loss to Government but with no benefit to him should there be profit due to difference of rates as tendered and approved and as purchased.

15. Weights, etc., of materials supplied, as sealed by the Chief Store-keeper on suppliers' invoices will be accepted as final and no representation by the supplier of his weights, etc., being correct will be considered and supplies made to the "Stores" unaccompanied by invoices will not receive attention and will be there at the suppliers' risk.

16. The supplier is bound to supply any of the materials direct to any pumping station outside Bangalore, when so advised by the undersigned, in which case *bona fide* packing charges, conveyance charges including railway freight from Bangalore up to the Pumping Station will be allowed to him. In all such cases the supplier is bound to send the articles always *Freight paid* and post the railway receipt to the consignee forthwith to avoid warfage and Demurrage charges.

Invoices should accompany the articles.

Bills should be sent to this office and not to the consignee direct.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.
